

FRUIT SPONSORSHIP FOR FOOD RESCUE PROGRAMS

Boston Organics has been an active and involved player in the local agricultural infrastructure in New England since 2002. We believe it is in everyone's best interest to build a strong regional network of growers, distributors and retailers. We deliver organic groceries to homes and offices right to their doorstep.

As the global pandemic continues to impact our community, we have remained focused on how Boston Organics can support our essential workers, and food insecure people. We have coordinated with departments at **Massachusetts General Hospital**, and **Eliot Community Health Services** to keep our health workers fueled and fed. We are also donating to **Food For Free** who improves access to healthy food through food rescue, strengthening community food systems & creating distribution channels to underserved populations. In 2020, Food For Free has distributed over 2.8 million pounds of food so far.

Your office can donate fruit to Food For Free with Boston Organics! Donate a standard (\$32/week) or large (\$48/week) sized produce box on a weekly basis. The minimum sponsorship is a month of weekly standard deliveries ($\$32.00 * 4 = \128.00 for the month; billed weekly). If you're interested in donating to essential workers and food insecure individuals.
