
Meet your Nurse Practitioner

Deanna Ebert, NP, APRN

Deanna is a lifelong learner who finds the world of medicine fascinating, and enjoys keeping up with the latest healthcare information. She loves learning new skills that will help her assist people to achieve their goals so they can live a healthy, happy life. And she finds working with seniors especially fulfilling because they have a lifetime of knowledge and stories to share. "With almost every interaction, I learn something new about living a more fulfilling life," she said.

Over more than two decades in the healthcare industry, Deanna has served as a technician in a hospital emergency room, a nurse in a major medical center, and finally as a licensed nurse practitioner. At Lifesprk, she is committed to understanding the goals and desires of the clients she serves, and to being the best healthcare provider she can be by always growing and developing her knowledge and skills.

Deanna lives with her husband and three children (two amazing human daughters and one wonderful basset hound mix). When she is not working, Deanna maintains her spark through outdoor activities such as downhill- and cross-country skiing, tubing, and swimming. She and her family enjoy dog-sledding trips and super-hero/comic-book movies, and are soccer fans who attend Minnesota United Games.
