

Nex Multi-Year Guaranteed Annuity (MYGA) Product

Issued by The Ohio State Life Insurance Company

Protect Your Principal and Grow Your Income

Income & Growth

Fixed annuities are designed to help grow your retirement income – typically at higher interest rates than those offered for financial products. Income is tax-deferred until you access it, allowing your money to grow and compound faster than products that are subject to annual income tax.

Access & Liquidity

People often purchase fixed annuities to grow their retirement savings or provide lifetime income payments – but you can also get access to your money through flexible withdrawal terms and available riders.

Principal Protection

Since fixed annuities are contracts with insurance companies, your principal and interest are protected. Protecting your income and savings is a critical step toward achieving your retirement goals and planning for the future.

Succession Planning

Fixed annuities can help families plan for the next generation, providing you a way to pass assets to your beneficiaries that may help avoid the lengthy probate process.

What is a Fixed Annuity?

Fixed annuities are insurance products that, after a single initial premium payment, earn a fixed rate of interest, allowing your money to grow on a tax-deferred basis until you decide to begin receiving annuity payments. Therefore, you can expect solid, guaranteed growth as long as the funds remain in the annuity until the end of any surrender charge period.

Fixed annuities often offer multiple guarantee periods to align with your specific needs and guarantee the interest rate for the entire guarantee period you select. With fixed annuities, you can be confident that what you expect is what you will receive – which is ideal for retirement planning.

Most Americans do not prioritize retirement early enough, which is why many traditional options do not fully meet the financial needs of retirees today. Fixed annuities, however, are designed specifically to benefit those who are already retired or nearing retirement age.

Planning for Retirement in Today's Environment

In today's economy, planning for retirement—and ensuring you're making the right decisions for your situation—is a complicated process.

Americans are living longer, and many retirees are outliving their savings. As life expectancy increases and the retirement burden shifts to individuals, there is a critical need for effective retirement solutions.

Current retirement options often fall short. Savings accounts and CDs typically offer low rates with limited benefits. And other investment options come with risks that can be especially problematic for retirement-aged individuals, including stock market volatility, interest-rate risk, and credit risk.

Addressing Retirement Concerns Through Fixed Annuities

Outliving Your Savings

Growing your retirement income can ensure you do not outlive your savings.

Increased Healthcare Cost

Get access to your money through flexible withdrawal terms when you need it.

State of Social Security

Retirees need a supplement to social security which is often not sufficient as a sole source of income.

Nursing Home Waiver of Withdrawal Charge Rider

If owner selects the Nursing Home Rider, after the first contract year and while the policy is in force, owner may request a partial or total surrender of the value of the annuity without withdrawal charges if owner provides satisfactory proof that:

- Owner is confined in a nursing home continuously for at least 90 consecutive days immediately prior to the request; and
- Owner's confinement in the nursing home began after the rider effective date.

Free Partial Withdrawal Rider

If owner selects the Free Partial Withdrawal Rider, after the penalty free waiting period, Ohio State Life will waive any withdrawal charges and market value adjustment on the first withdrawal in a policy year in an amount up to the free withdrawal percentage of the account value.

Death Benefit Feature Rider

If owner selects the Death Benefit Feature Rider, on the death of the owner (or the death of a joint owner, if applicable) before the income date, the death benefit amount will be the account value on the date of the owner's (or joint owner's) death. The market value adjustment and any withdrawal charges will be waived.

¹Some features and optional benefits and riders may not be available in all states.

NEX MULTI-YEAR GUARANTEED ANNUITY PRODUCT OVERVIEW

Contract Value & Withdrawal Charges

Account Value

The account value is the single premium shown in the policy schedule, less any premium tax and amounts withdrawn, accumulated with interest as described in the policy values provision.

Cash Surrender Value

The cash surrender value is the amount that is payable if owner surrenders the policy.

Market Value Adjustment

Under the terms of the policy, Ohio State Life adjusts the cash surrender value, death benefit, and/or withdrawal amounts during any guarantee period by a factor called the Market Value Adjustment (MVA). The MVA is based on the Constant Maturity Treasury Rate (CMT) appropriate for the guarantee period as shown on the policy schedule.

Withdrawal Charges

A withdrawal charge is assessed for each withdrawal before the maturity date. The withdrawal charge is determined based on the amount of time that has elapsed since the beginning of the applicable guarantee period and is calculated as a percentage of the account value at the time of the withdrawal, according to the schedule in the policy.

Policy/Policy Schedule

The policy is a contract with Ohio State Life that includes a policy schedule and outlines the terms of the policy.

Interest Crediting Method

Interest is credited daily and compounded at the end of each policy year. Interest payments and interim account balances are compounded using normal daily interest rate and the daily account balances.

Owner (Joint Owners)

The individual(s) (or entity) who is (are) entitled to exercise the rights and privileges under the policy

Change in Ownership

Owner can name a new owner by giving Ohio State Life written notice of the change. Upon naming a new owner, prior owner's ownership rights terminate, and the new owner is entitled to exercise rights and privileges under the policy.

Beneficiary

The person(s) or entity(ies) that owner has designated to receive any death benefits payable under the policy

Death Benefit

If owner dies prior to maturity, a death benefit will be paid to the beneficiary(ies). The amount will be the cash surrender value unless the death benefit rider is selected.

Withdrawals/Partial Withdrawals

Owner can withdraw all or a portion of the policy's cash surrender value prior to maturity, subject to withdrawal charges, market value adjustments, and minimum withdrawal amount listed in the policy.

Maturity & Automatic Renewals

Upon reaching the end of each guaranteed period, if owner is alive, the policy will automatically renew for a renewal guarantee period which is the same length as the initial guarantee period. The credited interest rate for the renewal guarantee period will not be less than the minimum guaranteed interest rate shown on the policy schedule.

Surrender

Owner can terminate the policy in exchange for the cash surrender value.

⁴ Applications for annuitants ages 75+ or for \$250,000+ may be referred for heightened review or home office approval.
