## GoAir reaffirms its TRUST in Ramco

Upgrades from Ramco Aviation Suite V5.5 to V5.8 across 23 locations to experience power of Mobility and Anywhere Apps

**New Delhi / Chennai, India – December 15, 2016 – [Ramco Systems](#)** today announced that it has been mandated by [GoAir, India's fastest growing LCC](#), to upgrade its Ramco Aviation Suite V5.5 to [Ramco Aviation M&E/MRO Solution V5.8](#). This upgrade will further automate and enhance its maintenance functions. The upgrade will cover modules for Engineering & Continuing Airworthiness Management Organisation (CAMO), Materials Management, Quality and Maintenance. The announcement was made at the India MRO Aerospace & Defence 2016 event being held at New Delhi.

GoAir has been functioning on Ramco Aviation offering since 2013, when the company went live on the application in a record time of 200 days, across 21 base stations, for its 15 fleet. The upgrade will additionally help in simplifying and streamlining GoAir's Purchase Operations, Inventory Operations, Aircraft Maintenance Execution and Technical Records keeping. The application's mobility feature will enable access to operations for mechanics and maintenance staff on the move.

Commenting on the upgrade, **Wolfgang Prock-Schauer, Chief Executive Officer, GoAir** said, "We have shared a great working relationship with Ramco. The upgrade will further automate our maintenance operations and provide better visibility of inventory & purchase operations."

**Virender Aggarwal, CEO, Ramco Systems**, said, "It is a great occasion for us to be part of the India MRO show. Having won the trust of global Aviation companies, it is a moment of pride to showcase our 'Made in India' product on home turf."

"The aviation market is constantly evolving and technology has been playing a pivotal role in addressing the changing market needs. With disruptive innovation like Anywhere apps, Ramco's offerings aim at providing a simplified user experience to the otherwise complicated business of aircraft maintenance. I am glad to note, GoAir, one of our most prestigious aviation clients in India will enhance its maintenance efficiency with this upgrade."

Designed to be accessible on cloud and mobile, Ramco Aviation Software continues to add technological innovations with '[Anywhere Apps](#)', redefining the power of Mobility, to significantly reduce transaction time both during AOG conditions and critical aircraft turnarounds. The software helps aviation companies ensure zero tolerance to error, with higher safety standards. Ramco is changing the paradigm of enterprise software with ZERO UI powered by cool new features such as Chatbots, Mail bots, HUBs and Cognitive solutions. With 75+ Aviation leaders onboard, Ramco is the solution of choice for several large airlines and top heli-operators and multiple MROs in the world.

### About Ramco Systems:

Ramco is a fast growing enterprise software player disrupting the market with its multi-tenanted cloud and mobile-based enterprise software in the area of HCM and Global Payroll, ERP and M&E MRO for Aviation. Part of the USD 1 billion Ramco Group, Ramco Systems focuses on Innovation and Culture to differentiate itself in the marketplace. On Innovation front, Ramco has been focusing on moving towards Cognitive and Robotic ERP with features such as **Chatbots** – which allows users to complete transaction using natural conversations; **Mail It** – transact with the application by just sending an email; **HUB It** - a one screen does it all concept built to address all activities of a user; **Thumb It** – mobility where the system presents users with option to choose rather than type values and **Prompt It** – a cognitive ability which will let the system complete the transaction and prompts the user for approval.

With 1600+ employees spread across 22 offices, globally, Ramco follows a flat and open culture where employees are encouraged to share knowledge and grow. No Hierarchies, Cabin-less Offices, Respect work and not titles, among others are what makes the team say, Thank God it's Monday!
