

Make Digital Orders the Foundation of the Rev Cycle

Streamline financial clearance, increase reimbursement and improve patient and provider experiences

Manual order processes are fraught with costly errors, omissions and delays

\$372B annual cost of US healthcare administrative complexity¹

94% of physicians say prior auths lead to care delays²

\$5M average annual revenue at risk due to denials⁴

90% of healthcare providers still rely on fax communications³

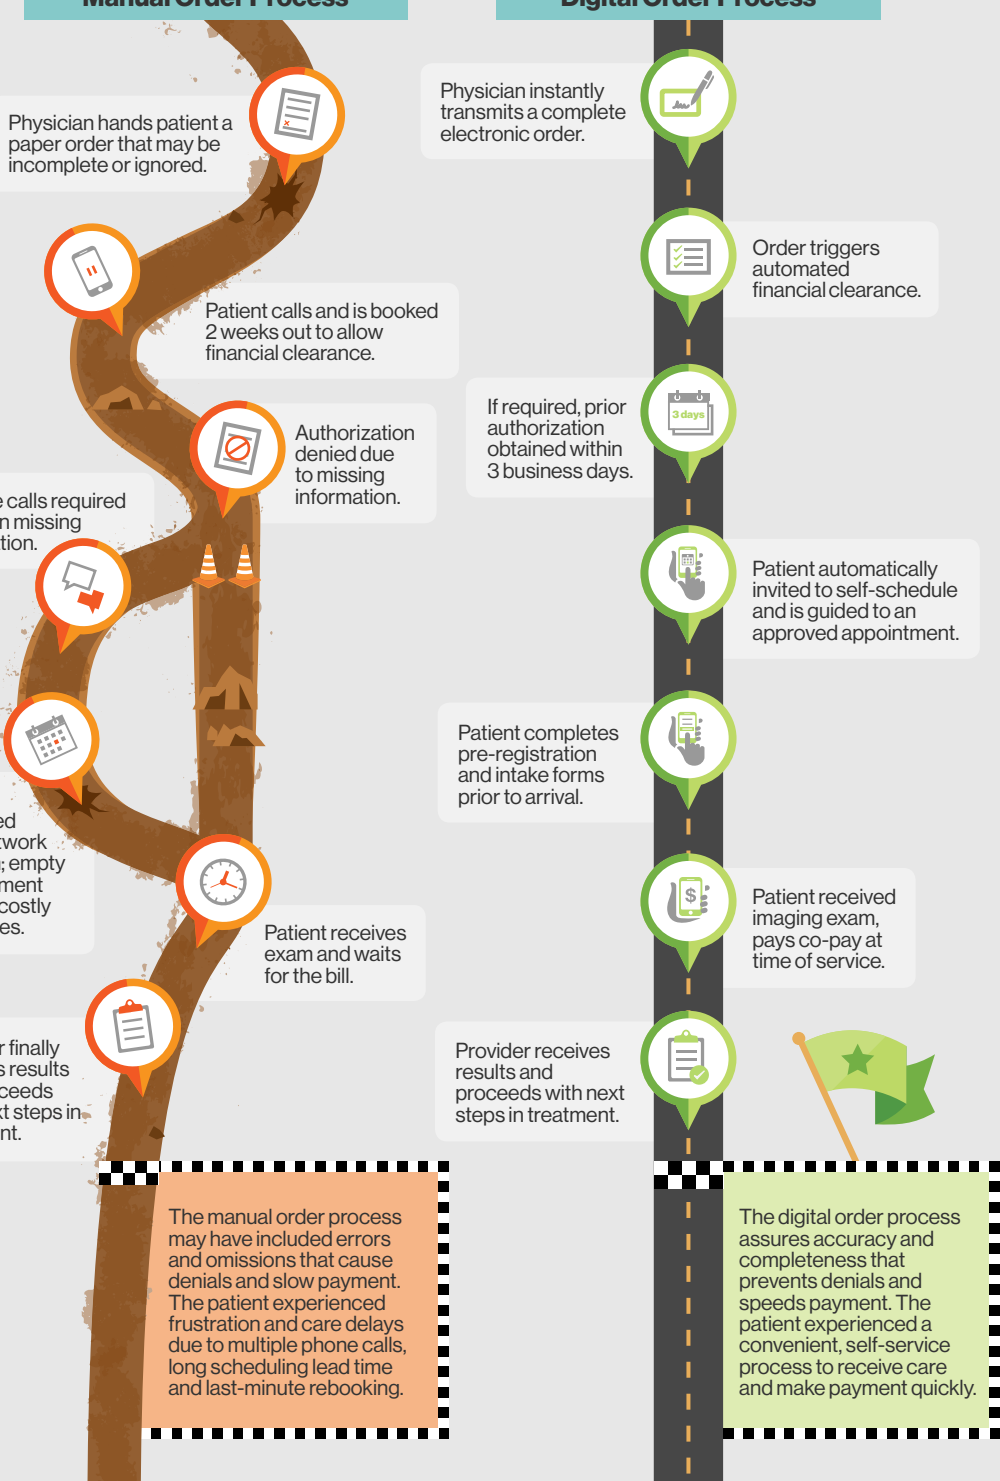

Up to 65% of denied claims are never resubmitted⁵

R1's Patient Experience platform operationalizes digital orders to accelerate financial clearance and care delivery

This comparison uses a diagnostic imaging order to illustrate how a digital process creates a smooth journey for patients and providers, while streamlining all the tasks down the road, versus the manual process that results in a disjointed and frustrating experience.

Manual Order Process

Digital Order Process

The R1 Patient Experience platform helps clients enhance patient and provider loyalty and improve performance

Automated, rules-based processes assure the right patient is scheduled for the right procedure at the right location with all the right resources every time.

Health Systems

Patients

Patients follow through with care and understand financial responsibility.

Referring Providers

Referring providers coordinate care effectively and know when patients receive recommended care.

It's time to move beyond manual processes and point solutions

By making a clean digital order the foundation of your revenue cycle, you not only speed up care and improve patient satisfaction, but also reduce denials, increase revenue, and improve provider loyalty.
