

CASE STUDY: ALF TO ATHENNIAN

After working with an outdated database that required cumbersome and manual processes, KMSC Law LLP decided to upgrade to the cloud, and reap the benefits of modern technology. Discover how Athennian supported KMSC Law LLP in their migration from ALF.

CHALLENGE

The KMSC Law LLP team found it challenging to coordinate and manage their workload using the outdated functionality of their previous entity management system, ALF. Even though ALF is advertised as a “modern solution”, KMSC Law reported that they still had to use lots of paper to effectively manage and store documents. This process was counterintuitive, and they required a more modern and user-friendly solution.

ACTION

When the COVID-19 pandemic impacted businesses in early 2020, KMSC Law LLP needed to quickly adapt to new remote work requirements. The Athennian Delivery Success Team supported KMSC Law in migrating their data to our cloud-based platform. This allowed the KMSC paralegal team to effectively collaborate and share information despite lockdown restrictions.

Athennian’s Delivery Team are experts at data migration, but KMSC Law is the expert of their own data. KMSC Law’s ALF cards were transferred over appropriately and efficiently using Athennian’s drag-and-drop ALF card import tool.

RESULT

After migrating from ALF to Athennian, the KMSC Law paralegal team now has an entity management platform that is intuitive and saves them time.

Lisa Larson, Paralegal, stated that the migration process was smooth and she felt supported by the Athennian team when it came to new feature requests and product training. Athennian’s DocuSign integration was a priority for this team – now, they can get documents signed faster and monitor their status without leaving the platform.

GOALS

- ✓ Transition to an entity management workspace that facilitates effective data management.
- ✓ Reduce paper requirements and improve accessibility for remote team members.
- ✓ Save time through modern integrations and functionality such as e-filing and DocuSign.

“To anyone who is upgrading to Athennian from ALF – the process is not bad at all. Our team was scared at first to learn a whole new system, but we’re catching on pretty fast. It’s easy to navigate Athennian.”

*Lisa Larson, Paralegal
KMSC Law LLP*

“In order to get signatures with ALF, we had to print out all the documents, put them in a folder and envelope, mail it out, wait for it to come back, scan it, upload it, and file it. With Athennian, it’s much faster to login, get signatures through DocuSign, and upload everything to the virtual minute book.”
