HAVEN

The Haven Difference

Haven is the all-in-one cybersecurity service that seamlessly combines all the necessary security components, management, and 24/7/365 security operations center. Haven is the affordable, effective, single-source solution.

A truly integrated and complete cybersecurity-as-a-service solution to prevent cyberattacks.

SINGLE-SOURCE
One company, one bill, one service to solve your cybersecurity and compliance needs.

EFFECTIVE
Best-in-class protective technology and "always on" detection and response.

AFFORDABLE
Full cybersecurity service for one low, per-user, monthly rate.

WHITE-GLOVE SERVICE
Starting the day of setup, Corvid Cyberdefense is a partner to manage it all and provide unparalleled customer service.

HASSLE-FREE
No need to research, procure, and integrate various technologies, or manage and monitor the network and data. With Haven in place, your customer can focus on other priorities.

CyVent
PLAN. PROTECT. PRE-EMPT
