Fathom

Fathom combines insightful reporting, fast cash flow forecasting and actionable financial insights into one refreshingly easy business management solution.

Watch an intro to Fathom

Taking the guesswork out of business performance

Many businesses lack the essential tools for success...

- No regular management reports
- No insights to guide decision-making
- No cash flow reports
- No metrics for measuring performance
- No KPIs for measuring financial health

What are the benefits of Fathom?

Track, visualise, and improve business performance

Gain insights into your business and make decisions with clarity. See your financials like never before and track performance at a glance.

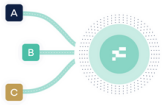

Look to the future, confidently

Forecasting is your crystal ball that helps you predict and plan for the future. Make changes to your business plan and instantly see the impact on your cash flow forecast.

Share results and keep your team informed

Effortlessly create professional looking reports, and help your team to stay on top of business results.

Effortlessly consolidate multiple entities

Use Fathom to easily group your companies together to create consolidated reports and financials.

Connect to your favorite accounting software

Fathom integrates directly with leading accounting platforms. Making it easy to get started, stay connected and get more out of your data.

We are Fathom Certified Partners

As Fathom Certified Advisors, there isn't much we don't know about Fathom. You'll benefit from our in-house experts, and if you subscribe through us, we can also give you partner pricing, so you get more insight for even less!
