

### National Air and Space Museum

#### Washington, D.C.

#### **Introduction and Instructions**

This is the most popular museum in Washington, D.C. In fact, it's the second most popular museum in the country (behind New York's Metropolitan Museum of Art) and fifth most popular in the world! Inside, the museum houses an eclectic collection of aircraft, including the plane flown by the Wright brothers, the command capsule from Apollo 11, and the Bell X-1 – the first plane to break the sound barrier. In addition to any prior knowledge you may have, use your research skills and the resources provided here to answer the questions below.

The National Air and Space Museum has a long and rich history that dates well before its official founding in 1976. Read more about it here.
