

# Vietnam Veterans Memorial Washington, D.C.

## Introduction and Instructions

The Vietnam Veterans Memorial was designed by Maya Lin, a 21-year old student from Yale University, whose entry beat out more than 1,400 other submissions in a design competition for the new memorial. At the time of its unveiling in 1982, the minimalist design generated a fierce backlash and negative reaction. Today, however, Lin's design is highly regarded and considered one of the finest examples of memorial architecture.
