

# FINANCE

## Gain real-time planned vs. actual visibility and improve cashflow accuracy

### Reduce Insurance Rates and Claims by up to 15-35%

Negotiate lower insurance premiums. Demonstrate robust safety and risk management as well as audit trails across every project in your portfolio.

### Prevent Costly Delays

Receive notifications for issues that have stopped works or pose schedule risk. Empower teams to effectively mitigate delay with live leading and lagging trends and Stop Delay Notifications.

### Interoperable & Integrated System for up to 43% more accurate data

Map your single source of truth for jobsite data with budget and schedule data to see trend insights. Reduce risk and improve estimate and schedule accuracy.

### Pro-active Pre-qualification

Reduce injury and incident risk by up to 60% and avoid delays. With visibility of all pre-start processes across all projects, you'll have the confidence jobsite teams are qualified and prepared - prior to starting works.

## REDUCE COSTS BY UP TO

# 6%

**We Believe Finance** teams need quick access to accurate jobsite data **to save time and improve profitability.**

## PLANNED VS. ACTUAL BOTTOM LINE INSIGHTS

Review real-time hours worked and equipment use to spot gaps in forecasts. Reconcile to mitigate unexpected cashflow demands and prevent over/under payment.

HAMMERTech
