

HAMMERTech

PROCORE®

HammerTech Sync

**Integrate
Field and Office**

Field and Office Integration Improves the Bottom Line

The HammerTech-Procore Integration keeps **construction office and field teams in sync**...literally. Save time, reduce time-entry errors, improve contractor onboarding and eliminate project delays.

**Automate Worker
Hours, Vendors
and Projects**

Improve Productivity

32%

Grindley

Create Job-Ready Workers on Day One

Prepare subcontractors and workers prior to arriving on site. Prevent workers from starting until the required pre-start contract forms and processes are completed.

Speed Up Weekly Admin Processes

Automatically sync worker hours into Procore and see man-hours per employee by subcontractor.

Compare Contract and Field Activity

Know which subcontractors/workers are active, qualified, and currently on projects at any time. Reduce field delays, keep projects on time, on schedule.

Eliminate Double Entry

Input subcontractor and project information once and see it in both Procore and HammerTech. Improve accuracy and reduce labor hours.

About Us: HammerTech's all-in-one field construction safety platform supports paperless operations. Empower contractors, engineers, and owners with comprehensive data to improve safety performance while reducing construction costs.

HAMMERTech

PROCORE

**Labor Hours per Worker
by Subcontractor**

**Subcontractors
(Vendors)**

**Project
Information**

**Leverage the Power of Procore
and HammerTech. Create
immediate project synergy.**

**Add Orientations, certifications,
equipment, JHAs, Sign-Ins, to
enhance field functionality.**

Automate Worker-Hour Daily Capture

Worker-hour reports from the HammerTech daily report are updated to the Procore daily report.

Smart comparison prevents double entry if hours are already captured in Procore.

Expedite Hour Approvals

Have confidence in recorded hours. Quick mobile GC review and approval of subcontractor hours submitted via HammerTech daily report.

Save Time Creating New Projects

Projects created in Procore are automatically created in HammerTech. Includes start/end dates, project value, address and other information.

Reduce Subcontractor Setup Time

Subcontractors (Vendors) created in Procore are automatically created in HammerTech.

Subcontractors assigned to projects in Procore or HammerTech are automatically added in each platform.
