

CONTROL TOWER

HammerTech reduces operational costs with improved productivity and increased visibility.

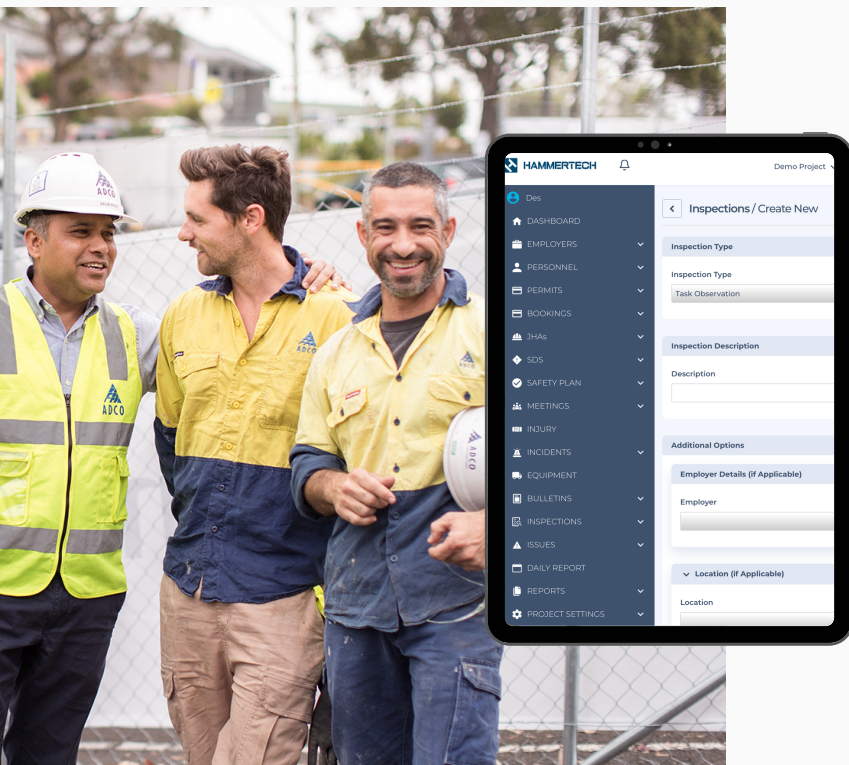

Manage all areas of safety and worksite operations in a single solution including: online enrollments, inspections, orientations, employers, equipment, monitoring, permits, JHAs and SDS management, audits, compliance, punch lists and more.

Powerful dashboards and reporting provide stakeholders remote and Job site transparency.

Eliminate paper and spreadsheet processes resulting in increased job profits and seamless collaboration.

Key Project Data Includes:

- **Project Performance Data (Daily Reports, Inspections, Pre-Qualifications, Control Tower)**
- **Hours and Activities (Daily Reports, Meetings, Issues)**
- **Productivity Data (Daily Reports, Meetings, Pre-Start Meetings)**
- **Safety Data (Safety Plan, JHAS, SDS'S, Incidents, Inspections)**
- **Equipment Data (Status, Maintenance Records, Servicing Hours, Inspections)**

32%+

INCREASED PRODUCTIVITY

CONTROL TOWER

ONE VIEW ALL PROJECTS

Increase Jobsite Productivity

Lowers injury rates and increases jobsite performance.

Join 2 million+ active HammerTech jobsite workers in safety, risk, and compliance projects see an increased productivity rate by as much as 43%.

Manage All Workers and Subcontractors

Equip workers with up to date orientations, training, and site documents. Reduce risk and job costs.

Reduce Premiums and Insurance Costs

Jobsites with qualified contractors significantly lower insurance premiums and risk, keeping projects on time, while optimizing productivity.

Faster Start/Completion Times

Pre-qualification expedites faster, ontime job completion while scheduling the right resources for the right work.

CONSTRUCTIONS MOST TRUSTED SAFETY PLATFORM

We Believe Project and Jobsite information should be accessible to **ALL project stakeholders including workers, schedulers, estimators, and project controls.**
