Join 2 million+ active HammerTech jobsite workers in safety, risk, and compliance projects see an increased productivity rate by as much as 43%.

2Mil+

GLOBAL PROJECT WORKERS

Manage All Workers and Subcontractors
Equip workers with up to date orientations, training, and site documents. Reduce risk and job costs.

Real-time Site Information - Access up to date, real time jobsite information across multiple sites, multiple subcontractors and workers. Identify issues before they occur. Increase scheduling, controls and forecasting accuracy with updated field to back office KPI's..

Reduce Premiums and Insurance Costs
Jobsites with qualified contractors significantly lower insurance premiums and risk, keeping projects on time, while optimizing productivity.

Automate and Integrate - Plug and play hardware solutions integrate with existing access control turnstiles.

Faster Start/Completion Times
Pre-qualification expedites faster, ontime job completion while scheduling the right resources for the right work.
