

SUPERVISORS

Supervisor Decrease Office Time - Increase Time Onsite

Supervisors increase the speed of onboarding, training and orientations.

Manage issues, JHA's, inspections, orientations, safety plans, pre-task plans and more in the field.

Automate Daily Reports

Empower supervisors with real time information from the field to the office.

Create better planning, scheduling, and safer job sites. Manage resources, workers, subcontractors workflow and safety processes across job sites in the field.

Eliminate Paper and Spreadsheets

Lower training time, increase productivity, and create a safer workplace.

Reduce project job site delays by 51% or more.

We Believe Supervisors should have more time in the field with **less time in the office**

REDUCE JOB SITE DELAYS BY

51%

Empowering supervisors across all job sites with worker information including: **qualifications, certifications, training history**, along with who is on site to schedule the right resource for the right task.

Supervisors have **real time site information** to expedite scheduling and planning to reduce delays and improving site safety.
