

SUPERVISORS

Decrease Office Time - Increase Time On-site

Supervisors increase the speed of onboarding, training and orientations.

Manage pre-start meetings, issues, SWMS, inspections, orientations, safety plans and more in the field.

Automate Daily Reports

Empower supervisors with real-time jobsite information like worker hours, connecting the field and office.

Improve planning and scheduling for safer jobsites with resources insight, equipment, subcontractor activity and safety processes status across all projects.

Eliminate Paper and Spreadsheets

Improve training retention, increase information access, productivity, and create a safer workplace.

Reduce project jobsite delays by 51% or more.

We Believe Supervisors should have more time in the field and **less time in the office.**

PREVENT INJURIES AND ACCIDENTS BY UP TO

61%

Empowering supervisors across all job sites with worker information including: **qualifications, certifications, training history**, along with who is on site to schedule the qualified resource for the right tasks.

Supervisors have **real-time site information** to **expedite scheduling and planning** to **reduce delays and improving site safety.**
