

Compliance Screening and Monitoring

Trusted Provider

For over a decade, Blue Umbrella has specialized in providing highly specialized due diligence research and third-party compliance technology platforms to organizations of all sizes, including notable Fortune 500 companies. Learn more about us [here](#).

Insights for Today, Plan for Tomorrow.

The Compliance Screening and Monitoring module from Blue Umbrella GRC will give you access to over 900 global risk, compliance and sanctions lists to identify potential areas of concern and make timely business decisions.

Run a one-time screening on demand or schedule ongoing monitoring on one or all of your third-party partners. Be up and running in seconds.

Simplify Your Compliance Screening

The Compliance Screening and Monitoring module gives you access to critical real-time data from over 900 key global risk and compliance databases, including:

- Over 900 risk, compliance and sanctions lists
- OFAC (Office of Foreign Assets Control)
- PEPs (politically exposed persons)
- SOE's (state-owned enterprises)
- SDN (specially designated nationals)
- Adverse media
- Modern Slavery Violators database

Exactly What You Need.

Blue Umbrella GRC allows mid-size companies to effectively manage their third-party compliance screening and monitoring activities using a solution built specifically for organizations their size, without the need for large subscriptions or heavy license fees.

Safe, Secure and Supported.

Blue Umbrella GRC leverages industry best practices to transmit, secure and store your data. Additionally, our client success team provides world-class support for when you have a question or need guidance.
