HUBSPOT-PRESTASHOP INTEGRATION – Synced Fields

When you connect your PrestaShop store to your HubSpot portal using ElixirSync Professional Edition, the plug-and-play connector automatically creates fields in HubSpot and syncs them. Connected fields are the following:

Contact details	Company details	Order details	Abandoned Carts	Last Order Info
Last Name	Company Name	First Order Date	Cart ID	Order Id/Reference
First Name	Website	Lifetime Value	Date	List of Products
Email Address	SIRET Number	# Orders Placed	Carrier	Carrier
Gender	APE Code	List of Products	Delivery Option	Status
Birthday		Oustand. Amount	List of Products	Module
Newsletter		Average Value		Delivery Number
Opt-In				Delivery Date
Date Added				Creation Date
Date Updated				Change Date
Active/Deleted				Shop Id
				Payment Method
				Total Discount
				Total Paid
				Total Products
				Total Shipping
