RE: COVID-19 Update

The purpose of this memo is to update you on our community COVID status. We currently have two residents who have tested positive for COVID-19 and are isolating in their condo. They are both experiencing symptoms but are doing well enough to be home. We have several other residents who are isolating due to exposure. They will remain isolated pending receipt of their PCR tests. All of them are doing well and experiencing mild or no symptoms.

Although we have just updated our COVID-19 protocols, we are asking for everyone to remain vigilant, especially in close areas such as elevators, cars, buses, and areas where distancing cannot be followed. We understand that this is most inconvenient for all of our club members but our main priority remains your safety, health and well-being.

Your cooperation is essential to ensure the safety, health and well-being of everyone in the community. As we often discussed, please notify us immediately if you feel symptomatic, so we can perform the necessary testing and prevent the spread of the virus.

Thank you all for your continued efforts to stay vigilant and safe!
