RE: COVID-19 Update #49

This memo is to advise you that we have a resident who tested positive for COVID. The resident was out of town at an event and per our protocols was isolated immediately upon their return, Friday, January 8th. We tested this resident that same day and were able to receive the results the same evening. The resident has been exhibiting mild symptoms. Due to being isolated immediately, there has been no exposure to any of the residents' neighbors or friends.

We do not anticipate any further changing of restrictions, but it is important that we continue to strictly adhere to the protocols that we have in place. Continue to wear your masks when outside of your condo, continue to report any sickness or temperatures above 99.6, continue to report your out-of-state travel and out-of-state visitors. With the number of cases rising in Florida, vigilance is the key to maintaining the safety of our communities.

The health and safety of all residents and staff continues to be our top priority and we will continue to keep you informed. We hope to see most of you tomorrow in the Auditorium at your designated time to begin the vaccination process.
