

**TO: All Jacaranda Trace Club Members**  
**FROM: Gail Chase, Chief Operating Officer**  
**Linda Wiley, Executive Director**  
**DATE: January 6, 2021**  
**RE: COVID-19 Vaccine**

---

As we eagerly await more information relative to the COVID-19 vaccination, this memo is being sent to not only acknowledge the angst many of you have expressed, but to also address some questions many of you have asked. As always, please feel free to reach out.

This past November, we selected Walgreens Pharmacy as our vaccinator and submitted all the necessary documents. As of today, we have not yet received any affirmative information related to a COVID-19 vaccination clinic for Jacaranda Trace. Because we have a licensed Assisted Living Facility on our campus, which is a facility type that has been prioritized for vaccination, we are confident we will be contacted soon. In that we serve a full continuum of care, our goal is for all Club Members to be a part of this clinic.

As some of you may know, our Sarasota Bay Club community has begun the vaccination process. Please know that the initiation of this COVID-19 vaccine clinic was prompted by the fact that Sarasota Bay Club encompasses a Skilled Nursing Facility, which was highly prioritized for initial vaccination. This was initiated at local and state levels, of which we have no influence.

Be assured that we are in daily communications with Walgreens in hopes of securing a date for Jacaranda Trace. Once we have a vaccination date and if we confirm Club Member eligibility, we will inform you immediately.

If you have any opportunity to secure the vaccine on your own, please do not hesitate to move forward.
