X5 Wireless - Using Technology for Human Safety

Read more >

The X5 Wireless Mobile HMI is a compact and lightweight device with an ergonomic design. Wireless connection with certification for safety devices makes this product the ideal solution for industrial applications.

Where there exists the need to easily connect and command movement by distance. Where a full day's battery life is useful. Where the fatigue of the operator is important to reduce so that human errors do not occur....the X5 system provides the most ground-breaking solution.

What is Digital Transformation or Digitalization?

Read more >

This article will discuss:

The digitalization of the factory, its processes, and the role of data analytics

Digital transformation technologies and the role they play in accelerating digitalization strategies and Industrie 4.0 business models

What industrial enterprises stand to gain by implementing digital transformation initiatives

What to Consider When Introducing 5G Into Your Factory

Read more >

This article will discuss:

What you need to know about 5G and deterministic networks benefits to the industrial sector

What to consider when introducing 5G networks into the factory floor

The security concerns associated with 5G networks and their deployment across the factory floor

### How Simple Visualization of Data Improves Performance

Read more >

This article will discuss:

The importance of data visualization to the digitization of the factory floor

Data visualization technologies and the important role they play in advancing Industrie 4.0 implementation

How data visualization enables access to interconnected systems

How can a Digital Twin Help Current Production Performance?

Read more >

This article will discuss:

The importance of digital twins in achieving the digital transformation needed to implement Industrie 4.0 business models

How the digital twin supports data analytics and Industrie 4.0 growth across the industrial sector

How the digital twin enables optimized performances within industrial facilities
