

How to redeem your NetApp Cloud Volumes Service 14-day trial

This offer is for 14 days or \$1,000 (whichever comes first) of free file storage on Cloud Volumes Service for Google Cloud. [NetApp Cloud Volumes Service for Google Cloud](#) is a fully managed cloud-native file storage service with advanced data management capabilities that delivers the performance, availability, and security required to run enterprise applications, such as Windows and SAP.

To redeem your coupon* follow these steps:

1. Visit the [Google Cloud Platform Billing Promotion Page](#) and select the billing account.
2. When prompted, paste the coupon code you received from your NetApp contact into the field and click the “Redeem” button.

Please note: In order for the coupon to be applied to the purchase, steps 1 and 2 must be completed before you configure volumes within the solution. We will not provide retroactive credits or refunds.

3. To verify the coupon has been applied to your billing account, navigate to your GCP Marketplace console “Billing Account” > “Account Management”.
4. Once verified, you’re ready to start using your free storage.

What if I have multiple coupons, credits, or free trials that I want to apply to the same purchase?

If you redeem multiple coupons/credits at the same time, the credits with the narrowest scope will be applied first. This means the system will automatically apply the credits specific to a GCP Marketplace solution before applying non-solution specific credits such as GCP Free Trial credits.

How long are coupon codes valid?

Coupon codes are valid **until February 1, 2022**. View the full [free trial terms here](#).

What if I still have questions?

For questions about the coupon program, contact the **NetApp Google Cloud Team**: GCInfo@netapp.com.

**This coupon is for qualifying customers with an Active Account ID and access to billing admin rights.*

This Trial Offer is only valid for a period of 14 days or once \$1,000 USD of Cloud Volume Services has been accrued based solely on NetApp’s determination beginning on the date that you activate the coupon code, whichever comes first. The coupon code you receive is non-transferable and additional terms and conditions may apply. May not be available in all countries. Ask your NetApp sales representative for more details.
