

SNP: Selective Transformation to SAP S/4HANA® BLUEFIELD KEEP THE BEST, TRANSFORM THE REST

Simple global solutions for transforming customers in the manufacturing and automotive industries to SAP S/4HANA.

SNP's Selective Transformation to SAP S/4HANA® enables companies to configure their individual transformation scenario for SAP S/4HANA using SNP's packaged solutions BLUEFIELD STANDARD, BLUEFIELD KEEP THE BEST TRANSFORM THE REST and BLUEFIELD for SAP BEST PRACTICES, SAP MODEL COMPANY. The solutions are based on the value added by SNP's data transformation platform CrystalBridge® and SAP services in a rapid, safe and efficient way.

Configure and accelerate your transformation to SAP S/4HANA through standardization to unlock your systems' full potential in three steps:

CHECK

Click through and evaluate your desired scenario via a high-level analysis

DESIGN

Assess the effort required to harmonize and standardize your landscapes and reveal their potential for innovation

DEPLOY

Choose your end-to-end process and derive the migration scope for your systems

RECEIVE ADDED VALUE THROUGH A MIGRATION WITH SNP'S SELECTIVE TRANSFORMATION TO SAP S/4HANA®

- Fact-based assessment of your system
- Minimizing risk through software that fits every scenario
- Accelerated project duration by at least 40%
- Earlier go-live maturity thanks to productive data testing
- Auditor-certified implementation software and transformation documentation
- Supports piloting and rollout concepts to avoid big bangs
- Reduced downtime thanks to Downtime Optimization
- Custom code and customizing optimization
- Alignment, masking, harmonization, and reduction of transactional-, historical- and master data
- Cloud sizing and migration to cloud

BLUEFIELD STANDARD

Our single source package delivers an accelerated and risk minimized SAP S/4HANA conversion, transforming a single SAP ERP system landscape into simple SAP S/4HANA items. This SAP Qualified Partner-Packaged Solution for your transformation takes three to four months.

ADDED VALUES

- Direct upgrade from older SAP R/3 or ECC releases directly to SAP S/4HANA
- Achieve earlier maturity through piloting
- Create a fast foundation layer directly on SAP S/4HANA for later optimization projects
- Harvest low hanging fruit by adjusting selected fields of optimization

BLUEFIELD KEEP THE BEST, TRANSFORM THE REST

Merge your SAP ERP system landscape clients into SAP S/4HANA to benefit from new functions and optimize your processes based on your existing implementation. Save your past investment and combine it with the innovation of a SAP S/4HANA system. This SAP Qualified Partner-Packaged Solution for your transformation takes seven to nine months.

ADDED VALUES

- Reduce the number of pre-projects to form one main project
- Include mandatory optimizations (Finance, business partners)
- Reuse mature building blocks
- Innovate essential building blocks
- Combine your SAP S/4HANA implementation with transformational elements (e.g. "golden" material master record, CoA harmonization)
- Start your new system with selected and harmonized master and transactional data harmonization)

BLUEFIELD FOR SAP BEST PRACTICES, SAP MODEL COMPANY

Draw on best practice standards to migrate your multi-ERP-system architecture and take advantage of proven processes in the SAP S/4HANA landscape. A full BLUEFIELD for SAP BEST PRACTICES, SAP MODEL COMPANY transformation can take up to 12 months.

ADDED VALUES

- Start with an SAP Best Practices or SAP Model Company system to create the new template design
- Achieve earlier template maturity and stability through piloting
- Start your new system with selected and harmonized master and transactional data
- Realize accelerated and industrialized rollouts using the methodology and organizational approach of our Analysis & Migration Factory – provided as standard

BLUEFIELD KEEP THE BEST, TRANSFORM THE REST

CB RAPID ASSESSMENT – REFINE THE PROJECT SCENARIO

€ 39.500.-

SCOPE

- Define planning prerequisites / guardrails determining the appropriate transformation scenario
- Software based analysis to evaluate and to compare system usage
- Identification of optimization needs and potentials
- Depict the target architecture
- Clear recommendation of a customer tailored project scenario
- Cost estimation and resource planning

ASSUMPTIONS

- Customer executes SAP Readiness Check, SAP Business Scenario Recommendation, SAP Transformation Navigator
- Execution of SNP CrystalBridge Analysis by SNP
- Authorization Check by SNP
- Custom Code Check by SNP
- Package valid for Finance, Controlling Purchasing, Sales, Production
- Project Duration of 2 months

TRANSFORMATION PROJECT – DEPLOY THE PROJECT SCENARIO

Starting from € 792.873.-

SCOPE

- Analysis and Design to determine project scenario and planning
- Selective Transformation from SAP ERP to SAP S/4HANA
- Migrate 50 % of historical data
- New General Ledger, no document split, New Asset Accounting, Business Partner in one step
- 2 test migrations + Go-Live Simulation
- Consulting package for mandatory customizing, project management, authorization remediation and delta training
- 4 weeks and one period closing for hypercare

ASSUMPTIONS

- Source of 1 SAP ECC,
- SAP FI, CO, MM, SD, PP, QM, PM
- Optional on Hyperscaler (Private Cloud) or OnPremise
- Three Tier Landscape System Architecture (DEV, QAS, PRD)
- Additional Transformation Packages available (NZD, etc..)
- Project Duration of 6+ months
