

Overview

Company Name: Kellogg's
Industry: Food Manufacturing

Business Challenge

Requirement to carve out Latin American business into dedicated cloud system including upgrade, OS/DB migration, data conversions, and move to the cloud with extremely short business downtime

Datavard Solution: Transformation Suite

Summary

When Kellogg's needed to carve out their Latin America businesses from their global SAP ERP system, Datavard was able to combine all required transformations into one short business downtime: the SAP Data carve-out, shell creation, upgrade, Unicode conversion and cloud transition. The result is a lean, optimized system with only these relevant company codes, running in the cloud on the latest SAP Release and Enhancement Pack (EHP) level. All of this was achieved in one production cutover for SAP ERP and SCM.

Highlights and Key Figures

- 8TB of data was successfully carved out and transferred to the cloud
- Near-Zero-Downtime (NZDT)
- OS/DB migration and SAP release upgrade
- Datavard Validate was utilized to document, accelerate, and automate testing
