**CONTENT MANAGEMENT:
ARENDR SAAS CONNECTOR FOR ALFRESCO.**

01

1.0 - THE CONTEXT

THROUGH THE DEVELOPMENT OF SPECIFIC CONNECTORS, THE TWO COMPANIES ALFRESCO AND ARENDER, HAVE ALREADY COMBINED THEIR GLOBAL CONTENT MANAGEMENT OFFERS, SINCE 2015.

"This technological partnership is a complementary advantage to our offer. Its objective is to accelerate the digital transformation of companies by providing them with standard and open solutions. This is not about competition between Arondor and Alfresco's other integration partners, but about collaboration within an ecosystem whose common objective is to bring complementary value to companies," said Maxime Orain, director of key account markets in the industrial and services sectors at Alfresco.

NOW, THE TWO COMPANIES ARE GOING FURTHER BY ANNOUNCING THE PUBLIC RELEASE OF ARENDER SAAS CONNECTOR FOR ALFRESCO TECHNOLOGY.

02

ARENDER SAAS CONNECTOR FOR ALFRESCO

The idea of the ARender SaaS Connector for Alfresco is to offer all Alfresco users the possibility to quickly and easily use ARender in their existing Alfresco instances.

By default, it offers an evaluation period that can be extended later to full use as part of our own SaaS offer.

03

ARENDRER SAAS CONNECTOR FOR ALFRESCO

ARender SaaS offers the Alfresco user community the opportunity to experience easier, more direct ways to use ARender document viewer in a transparent way.

Document delivery, ARender services, all this is happening in the Cloud.

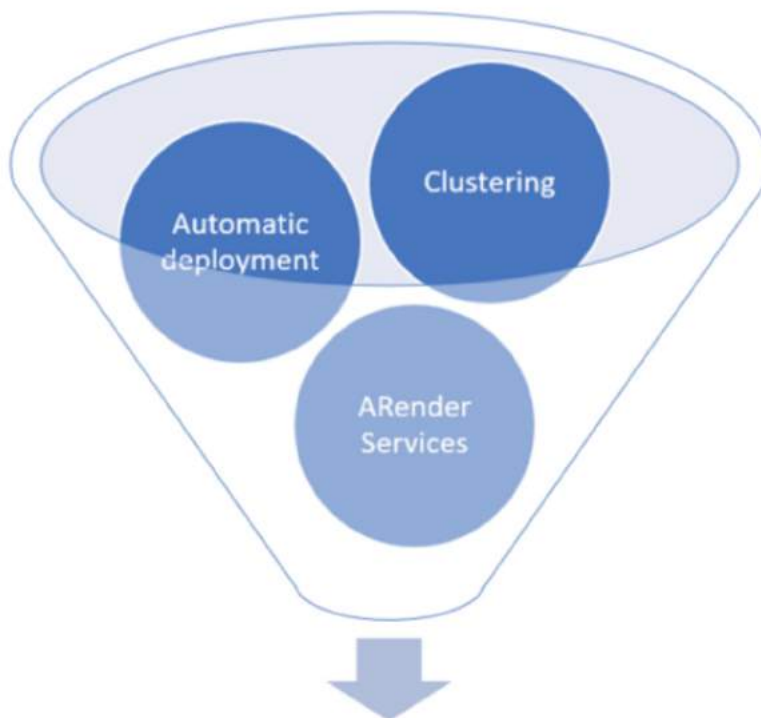

04

HOW ARENDER SaaS CONNECTOR FOR ALFRESCO WORK?

ARender SaaS connector for Alfresco operates using an APIKey (generated during registration) on our own SaaS infrastructure and downloads the documents you want to view on this platform.

Once the document is fully downloaded, ARender is open and can be used without restrictions.

The document will be cached for one hour since the last access before it disappears from our SaaS.

05

HOW ARENDER SAAS CONNECTOR FOR ALFRESCO WORK?

ARender SaaS connector for Alfresco is based on the same techniques as our own Cloud approach:

- Clustering,
- Self-scalability
- deployment of services,
- REST APIs,
- Advanced keep annotations from one consultation to the next.

There will be no difference between **ARender SaaS connector for Alfresco** and complete ARender installation.

Performance and quality are ensured by our expertise in the installation of our product.

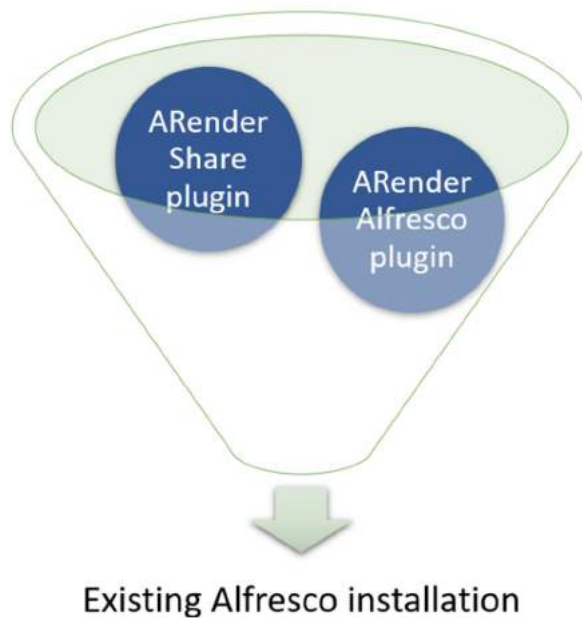

06

DO I NEED TO INSTALL SOMETHING TO RUN ARENDER SAAS CONNECTOR FOR ALFRESCO?

ARender SaaS connector for Alfresco is very simple;

Two plugins are provided once you have registered online and you simply upload them to your Alfresco installation (one for Share and one for Alfresco).
