CHALLENGING OUR THOUGHTS ON SAFETY

MENTAL HEALTH DECLINES

Experts have predicted a “tsunami of psychiatric illness” in the aftermath of the COVID-19 pandemic and the impact is likely to be long-lasting.

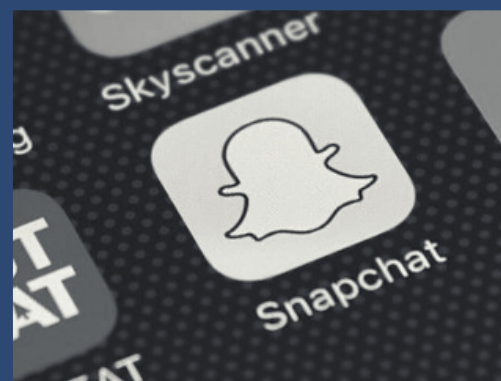

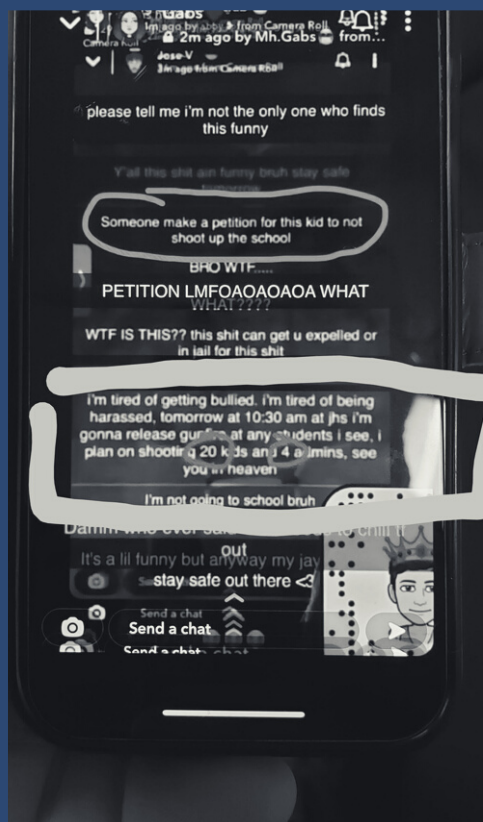

INCREASED THREATS

Unfortunately, this year the FBI says they’re seeing more students making threats on social media.

These threats are not a joke. They have devastating consequences on our community, the stress and the undo fear that it causes our children and our parents.

VIOLENCE IS ON THE RISE

The homicide rate in some large cities rose by 30% in 2021 and the violence shows no signs of slowing down. Now its spilling into our schools.
