COMPARISON CHART

Venio One
Unified E-Discovery Platform

eDiscovery Software comes with a range of features that can be grouped into 3 main capabilities. We conducted a thorough and unbiased comparison of over 35 main features drilling down into the details of what makes a feature complete. We then picked the top features in each capability to develop the chart below.

Note: If you want to see the complete list of features, please email us at sales@veniosystems.com

How to read this chart:
- Empty circles indicate that either the feature is not supported or we could not determine its availability.
- Incomplete circles indicate functionality under development.
- Full circles indicate that the feature is available, works as expected and is being updated regularly.

Capabilities	Venio Systems	iPro	Relativity	Nuix	Law
PLATFORM					
Unified End-to-End Solution	●	◑	◑	○	○
Hybrid Deployment (On-Prem / Cloud)	●	◑	◑	◑	○
Secure Self-Service	●	○	○	○	○
