

# Maximize the Power of your Applicant Tracking System

A **BACKGROUND CHECK PROCESS** enhanced by an applicant tracking system (ATS) integration allows you to **automate key processes** and deliver a better experience for all stakeholders. Integrating your ATS with Corporate Screening EASE technology **adds even more efficiency**. Boosted by human components of open collaboration, customer feedback and industry best practices, our highly configurable technology is evolving to exceed your needs. When implemented effectively, tech + expertise assures compliance and maximizes efficiencies.

## BENEFITS

- Programs are specially designed to **increase operating efficiency**.
- Integration provides a **more complete view** of a candidate; you can see background screening results, interview notes, and other candidate data in one place.
- **Improve productivity** as a result of reduced manual and double-entry of data.
- Consistent **disclosure and authorization forms**.
- Organized **document filing and record retention**.
- Faster, **more well-informed** hiring decisions.

## FEATURES

- Seamlessly connect to any ATS with an **open API framework**, customized to your organization's unique needs and workflows.
- Customized **rules-based options** fit your specific workflow and assure your candidate's information flows directly to us—safely and securely.
- Pre-integrated and fully configurable integration solutions are available to allow for ordering **through your system of choice**.
- Expert consultation is provided to lead your ATS implementation process

**INTEGRATE YOUR ATS, OR CONFIGURE EASE TO YOUR WORKFLOW WITH OUR API FRAMEWORK**

## Implementation Process

**WHILE THE OTHERS ARE CHECKING BOXES**, we're busy checking everything else, collaborating with you to assure no stone is unturned through your integration implementation process. We take a holistic approach, considering your workflows, processes, current successes, and areas to improve.

**98 PERCENT OF FORTUNE 500 COMPANIES AND 40 PERCENT OF COMPANIES OVERALL USE AN ATS.**
