Practice Name

Time Frame eg. Last Week

Our Team's Focus Care Metric

Select a metric to galvanise your practice team around – a goal the team can all work towards. Patient care is such an important part of our reason for working in healthcare and is a great way to focus the team.

Utilisation

Utilisation is vital for practice business growth and sustainability.

Finance

Practice finance is not something the owner needs to carry alone.

Operational

How are our clinic operations working? They can be a strong indicator of where to focus attention.

Looking Ahead

Don't always look back – look ahead so your team can shape your practices future.
