

Who are the stakeholders that you need to get on board for your project to be successful? This list is a starting point. Think through your organization and add anyone who is important to the success of your project.

Tips

- Email the Researcher Listserv to gauge interest
- Ask them "How would they benefit from it?"
- Ask them for money?
- Gather all of the stakeholders for a project kick-off meeting.
- Let us talk with them! We are here to help as your partner in the project.
- Speak their language - Examples:
 - Operational Efficiency -> Facility Manager
 - Discuss financial/labor savings -> Finance
 - Job Satisfaction -> Husbandry/Vet
 - Research Productivity -> Researchers, HS Director
 - Bring in grant money -> Researchers
 - Better animal welfare -> IACUC
