

# SIMPLIFY DELIVERY PROCESSES WITH MOBILE BILLING

## About iRely

iRely is a leading global supplier of innovative software solutions that help petroleum distribution and convenience store clients simplify their core business processes. Based on a single, modern and configurable platform, iRely has attracted and retained a large and referenceable customer base over its 30-year history, and developed a reputation for their laser focus on customer success.

## Mobile Capabilities

iRely's application-based mobile capabilities can run on mobile phones and tablets, saving valuable resources and time for your company, your drivers, and your payment cycle. Mobile features send orders directly to drivers, saving them time and maximizing time spent delivering fuel. Least-cost routing capabilities optimize fuel expense while reducing the time needed to organize delivery routes. Enable drivers to bill customers electronically through mobile billing features, integrating paperless e-invoices directly into the software for back office processing and efficient payment. The inventory and transaction tracking enabled by our mobile capabilities allows for seamless reconciliations, accounting for every gallon sold and helping you avoid costly errors.

## Features

**Order Integration**  
providing delivery data instantly to the driver on mobile device

**Streamlined On-site Payment Collection and Reconciliation**  
strengthening cash flow and saving significant back-office processing time

**DOT Reporting**  
enabling accurate inspection report mandated by DOT

**In-Truck Inventory Monitoring**  
making it easy to reconcile end-of-day inventory to ensure you've accounted for all your gallons sold

**Shift Management**  
enabling the driver to start and end their shift anywhere, tracking all of their shift related activities

**Transaction Tracking**  
monitoring every transaction and method of payment to avoid costly mistakes

**Invoice Creation, Processing, and Payment**  
reducing time spent, errors and manual re-entry through printed invoices
