

# COMPREHENSIVE COMMODITY MANAGEMENT FOR THE *FOOD & BEVERAGE INDUSTRY*

Leveraging iRely's expertise in commodity procurement to solve food manufacturers' biggest challenges.

## MINIMIZING COMMODITY RISK

- Manage complete audit trails
- Stay ahead of potential problems by receiving instant alerts if risk thresholds are breached
- Support key processes with sophisticated demand management, accounting, contracts, fixed assets, payroll, and trading analytics capabilities

## SEAMLESSLY MANAGING RECONCILIATIONS

- Get real-time reconciliation of trades, stocks, commissions and more
- Save time and money by simplifying and expediting EOD/EOM processes

## ENSURING FOOD SAFETY AND QUALITY WITH REAL-TIME TRACEABILITY

- Monitor commodities from origin to final goods
- Gain complete visibility to ensure food security, sustainability initiatives, environmental obligations, consumer specifications (non-GMO, organic, etc.) and vendor optimization

## RESPONDING FASTER TO DYNAMIC MARKET CONDITIONS

- Have access to the most current strategic information
- Use integrated data analysis tools to intelligently respond to market changes in real time

## MANAGING YOUR COMPLETE COMMODITY PORTFOLIO

- Simplify complexity with one platform for all trading and pricing activities for multiple commodities across multiple business units
- Save time and enhance efficiency by automating processes like reconciliation, settlements and closeouts

## ADHERING TO REGULATORY AND COMPLIANCE STANDARDS

- Meet IFRS9 and US GAAP requirements with iRely's automated regulatory reporting modules
- Benefit from flexible and configurable hedge accounting tools
