Preparing Tomorrow's Workforce Today

Turn Possibility into Reality

ComSource delivers technology solutions coupled with financial strategies to bring your institution's vision to life.

As an IT solutions provider, we don't manufacture technology, we harness it. Acting as your technology advocate, we're the people behind the technology, designing for you and working with you. With trust, loyalty, and relationships as the cornerstone of our business for over 30 years, let us help you redefine what's possible.

Start Today

Today's students not only need current technology to make learning easier, but they also need relevant technology to connect them to educational opportunities all over the world. This presents unique challenges to higher education institutions. At ComSource, we aid colleges in focusing on the technology that facilitates learning today, as well as offering ways to prepare today's students for their future careers. Committed to helping institutions create a connected campus, ComSource designs technology solutions to extend the learning environment delivering quality education to all students, from anywhere, at any time, on any device.

ComSource delivers technology solutions coupled with financial strategies to make possibility reality, enabling higher education organizations to:

- Reach and engage with new learners beyond the campus with unified collaboration tools.
- Attract and enable the student population with any time, anywhere access with a secure Residential Network.
- Cut costs and streamline administrative and operational efficiency with PC Lifecycle Management.
- Heighten safety and security with IoT applications and integrations.

Empower Your Students to Make More Possible

ResNet

One of the critical components of retaining residents on campus is a robust and reliable campus WiFi network. Typical college students bring eight or nine connected devices with them to school each year. ComSource's ResNet service bundles WiFi, Internet, Internet protocol television (IPTV), phone services, and support to students living in on-campus residence halls.

ComSource takes a holistic approach to develop high-performance systems that are stable, reliable, and able to manage a large number of connected users on campus. Our ResNet professionals will design and manage your campus tech requirements, freeing up your IT staff for other strategic initiatives.

Collaboration

Smart institutions must reevaluate their communication methods in order to provide for an evolving student and educator needs. ComSource helps learning organizations adopt new technologies that inspire innovation and accelerate communication to keep pace with learning activities.

Virtual & Physical Security

Designing and implementing a connected campus is just the beginning of a fully functional network architecture. Users must be confident that data is protected and networks are safe to access. Virtual and physical security can be achieved through a reliable security architecture that keeps the campus and constituents safe. ComSource security experts help you prevent any breaches before they occur.

PC Lifecycle Management

Learning is more conducive when a student's tools are up-to-date. The ComSource mix of hardware, financing options, and deployment eliminate the stresses of hardware management. Solutions include custom financial program solutions, reduced total cost of ownership (TCO), strategic procurement and fulfillment, and secure asset tracking. ComSource standardized user packages help higher education organizations track and manage hardware, purchase, and lease, provide security and track hardware lifecycle management.
