

Collaboration Solutions

Connect Your Team Efficiently and Effectively

Turn Possibility into Reality

ComSource delivers technology solutions coupled with financial strategies to bring your business' vision to life.

As an IT solutions provider, we don't manufacture technology, we harness it. Acting as your technology advocate, we're the people behind the technology, designing for you and working with you. With trust, loyalty, and relationships as the cornerstone of our business for over 30 years, let us help you redefine what is possible.

Start Today.

Collaborate More & Travel Less

Communication is the backbone of any business. To maintain a competitive advantage, organizations are reevaluating their communication methods to enable a more mobile, and dispersed workforce. We're working with our customer's to extend secure, rich network access to their employees from wherever they are and create shared virtual workspaces which support dynamic, real-time collaborative experiences. In an age of remote workers and online collaboration, diversify your voice, video, and messaging to reach your audience, when, where, and how you need to.

The definition of a corporate office environment is changing, *from the way you worked five years ago, to the way you'll be working two years from today.* Let ComSource provide secure, reliable collaboration solutions that maximize your time and increase your efficiency.

- Scale your expertise across the entire organization without geographic boundaries.
- Collaborate and innovate with seamless connectivitiy to people, resources, and information across your organization and around the world.
- Reduce costs by fully embracing the virtual office while maintaining high employee productivity from the conference room, the home office, or on the road.

Business Phone Systems

Enable communications convergence through our shared IP-based infrastructure allowing calls, messaging, and conferencing from anywhere, on any device.

Unified Communications

Consolidate all office communications onto the same platform offering voice, video, and data in a single comprehensive environment.

Unified Messaging

Securely retrieve email and voice messages from wherever you are through a unified inbox.

Call Reporting & Accounting

Manage your business intelligently by enabling the measurement of key metrics to increase worker efficiency and improve your customer experience.

Video Conferencing

Bring your dispersed team closer together through real-time, face-to-face communication including bi-directional audio and video and desktop sharing through hosted/cloud services and onpremises solutions.

Video Security

Maintain surveillance over key locations using our high-resolution video system, with notifications enabled to quickly alert you when questionable activity may be occurring.

Digital Signage

Stream HD digital advertisements, notifications, and other information through live and on-demand content, driven from a wide variety of sources.

Video Content Management

Publish, share, and inventory your video content in high resolution format to distribute for training, compliance, and promotion.

Notification & Presence

Text, chat, collaborate, and unite employees across your organization with notifications of availability and IM and text messaging features. Connect with your team whenever and wherever they are available.

IP Paging & Emergency Response

Deliver a live or prerecorded message to any IP device or group of devices to simplify your communication and collaboration efforts. In an emergency, protect your most important assets, your people. Quickly place emergency calls and blast announcements via digital signage or IP phones to desktops, soft-phones, cell phones, and text messaging applications.
