

# Top 15 High-Growth Digital Healthcare Companies

Based on Synaptic Growth Index, a composite score of multiple performance metrics

February 2022

# Overview

Our first sector report of 2022 highlights promising startups in the healthcare industry—**primarily in digital healthcare**—where innovators are finding solutions to make lives easier for both patients and professionals.

We looked at digital healthcare companies across both **Consumer Healthcare** and **Healthcare IT** sectors.

These sectors have seen an uptick of activity on our platform with a renewed focus on:

- Personal healthcare, mental wellness, and improving access to services for consumers
- Patient communication, point-of-care solutions, healthcare digitization, and drug discovery for providers

In this report, you'll find a preview of **15 high-growth companies** that rank high on the **Synaptic Growth Index**, based on alternative data metrics across 1000s of companies.

# About Synaptic

- Synaptic helps investors get company insights by unifying a wide spectrum of alternative data on a single no-code platform.
- We unify data from proprietary and custom sources with a rich analytics toolkit, enabling more efficient ways to complete and complement the research workflow—from sourcing and tracking to due diligence of companies and sectors. We work with top Venture Capital firms, Private Equity firms, and Hedge Funds across the globe.
- Alternative datasets cover areas such as apps, marketing, employees, product reviews, gaming, search trends, funding, public markets, company firmographics, and more.
