# SCOUTING FOR COOKIES

AN EDUCATIONAL COLORING AND ACTIVITY BOOK

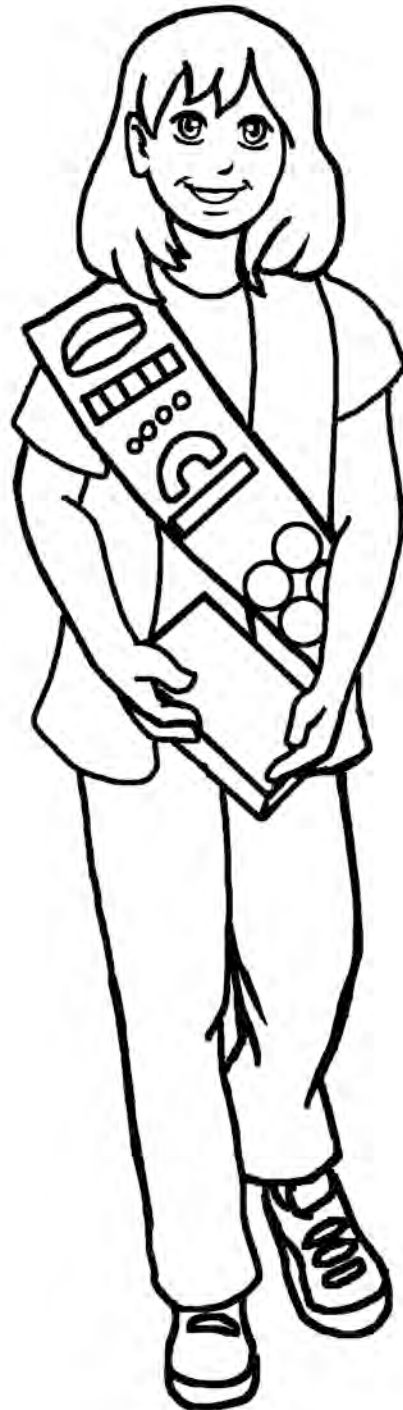

# Where do cookies come from?

Have you ever wondered where cookies come from before they are handed out?

Adelynn does, too!

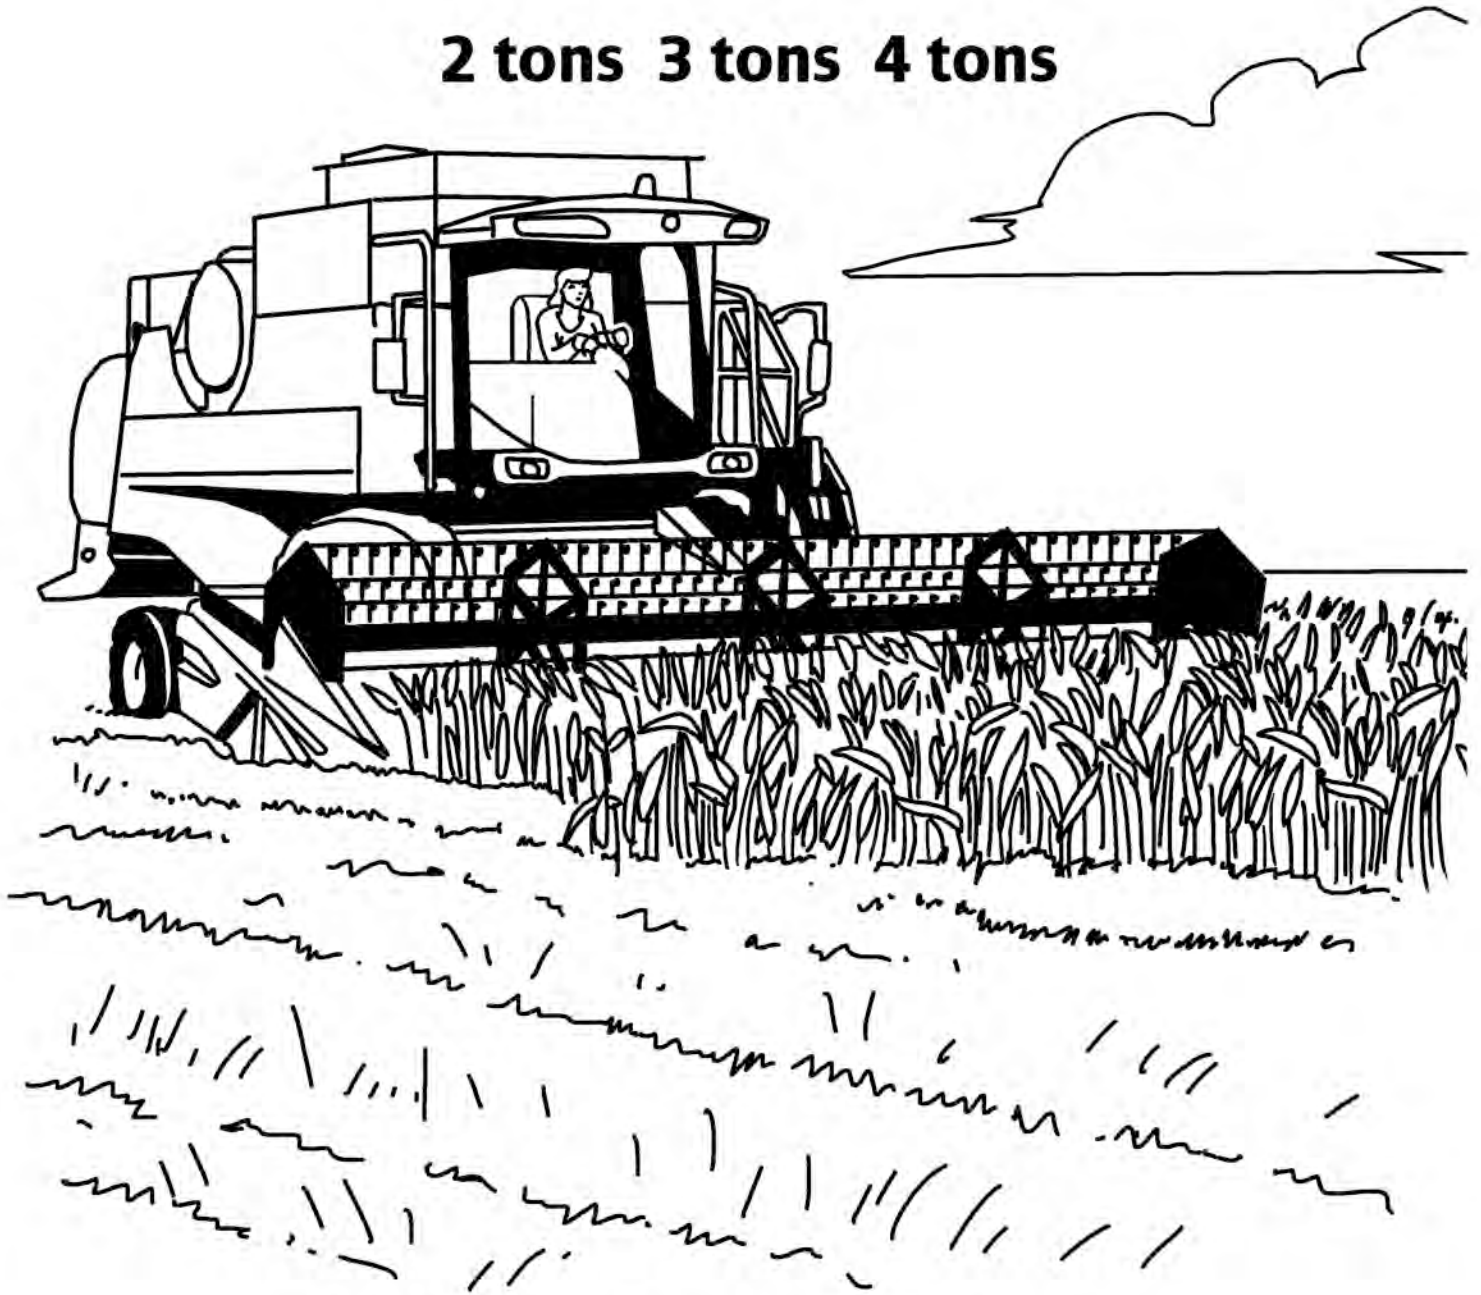

She set out to learn the process from start to finish and she wants to bring you along.

Complete the fun activities along the way!

**Can you guess how many tons of wheat  
are gathered per acre?**

**2 tons 3 tons 4 tons**

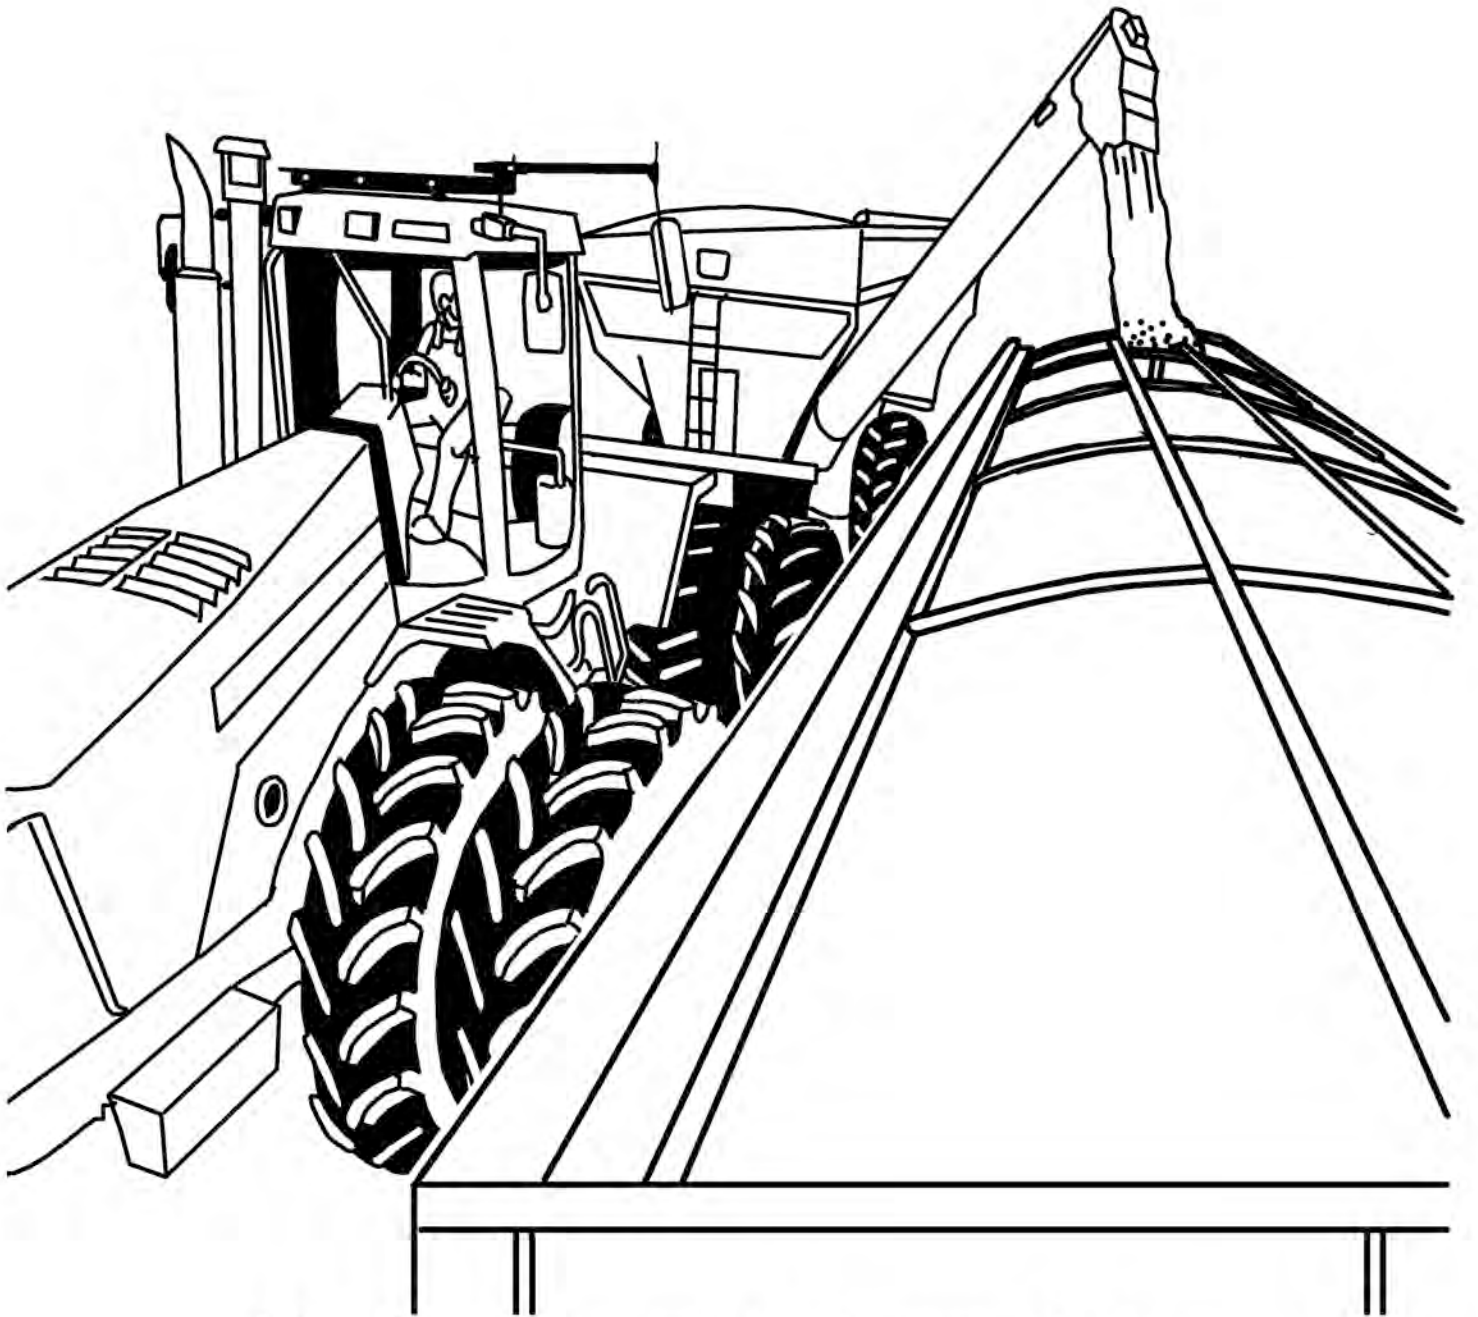

**Adelynn starts at the very beginning -  
on the wheat farm.**

**Wheat is an important ingredient for many baked  
goods like delicious cookies!**

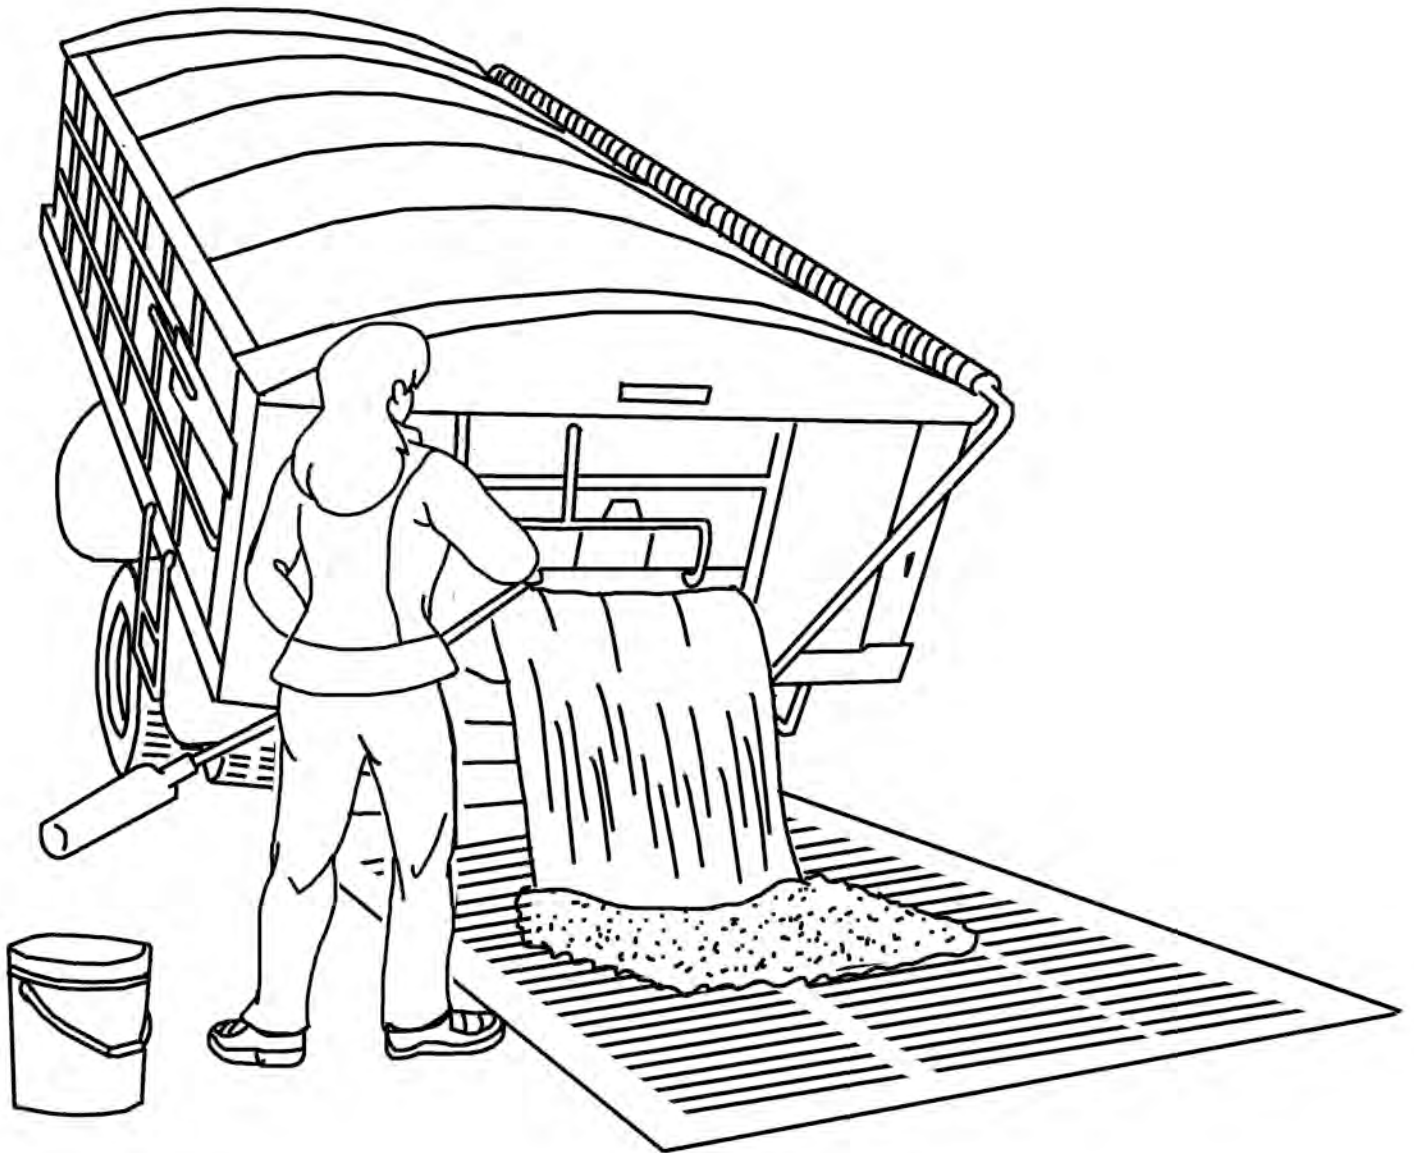

Answer - Nearly 3 tons of wheat are farmed per acre every year! That's 6,000 pounds of wheat!

**Draw in the grain to fill up the truck!**

After the grain is cut, it is transported to a local grain elevator or silo.

**Once the truck gets to the grain elevator, it is weighed and unloaded.**

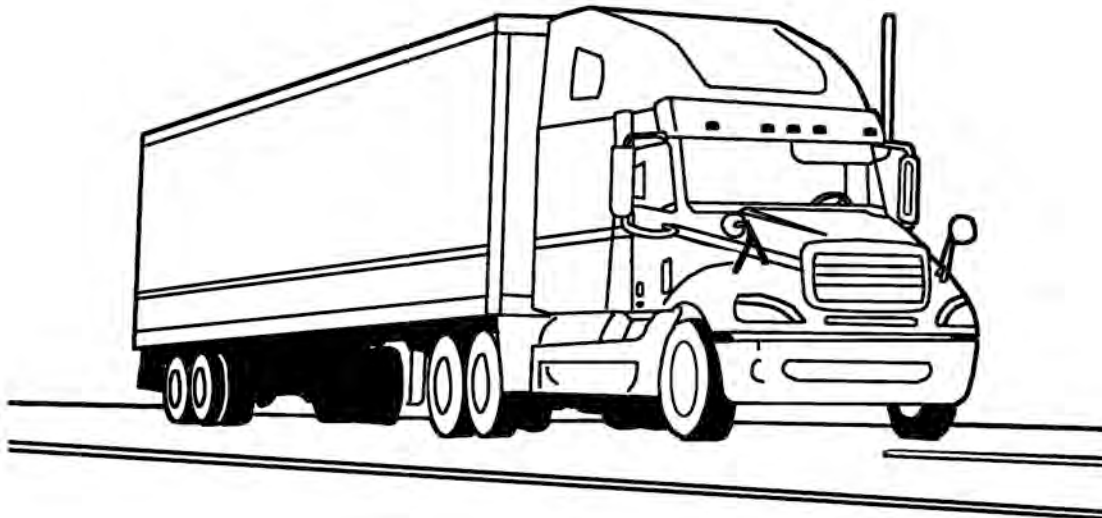

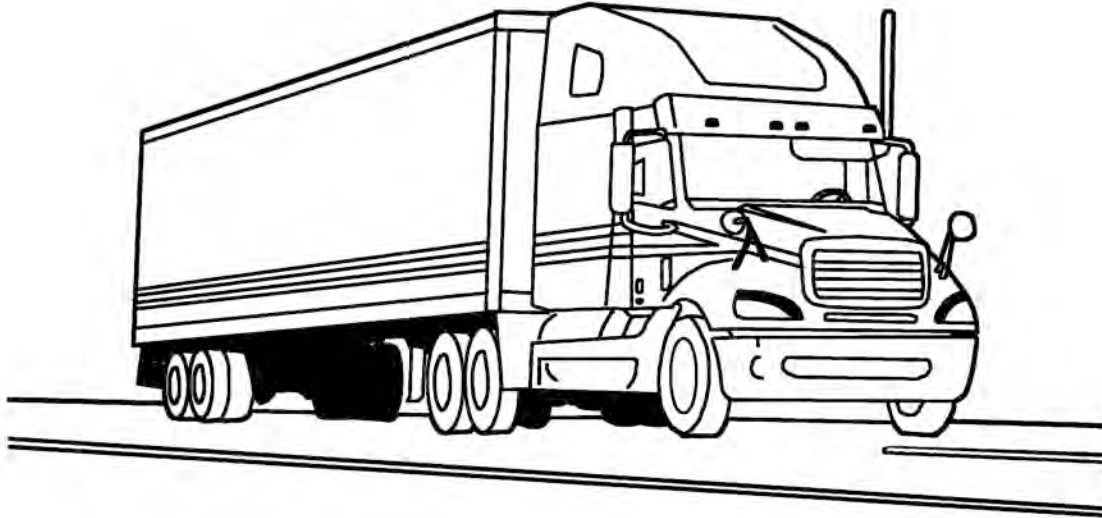

Adelynn learned that the driver will move the truck over grates in the elevator floor and dump the wheat for storage.

## At the flour mill

On another truck, Adelynn follows the wheat from the elevator to the flour mill.

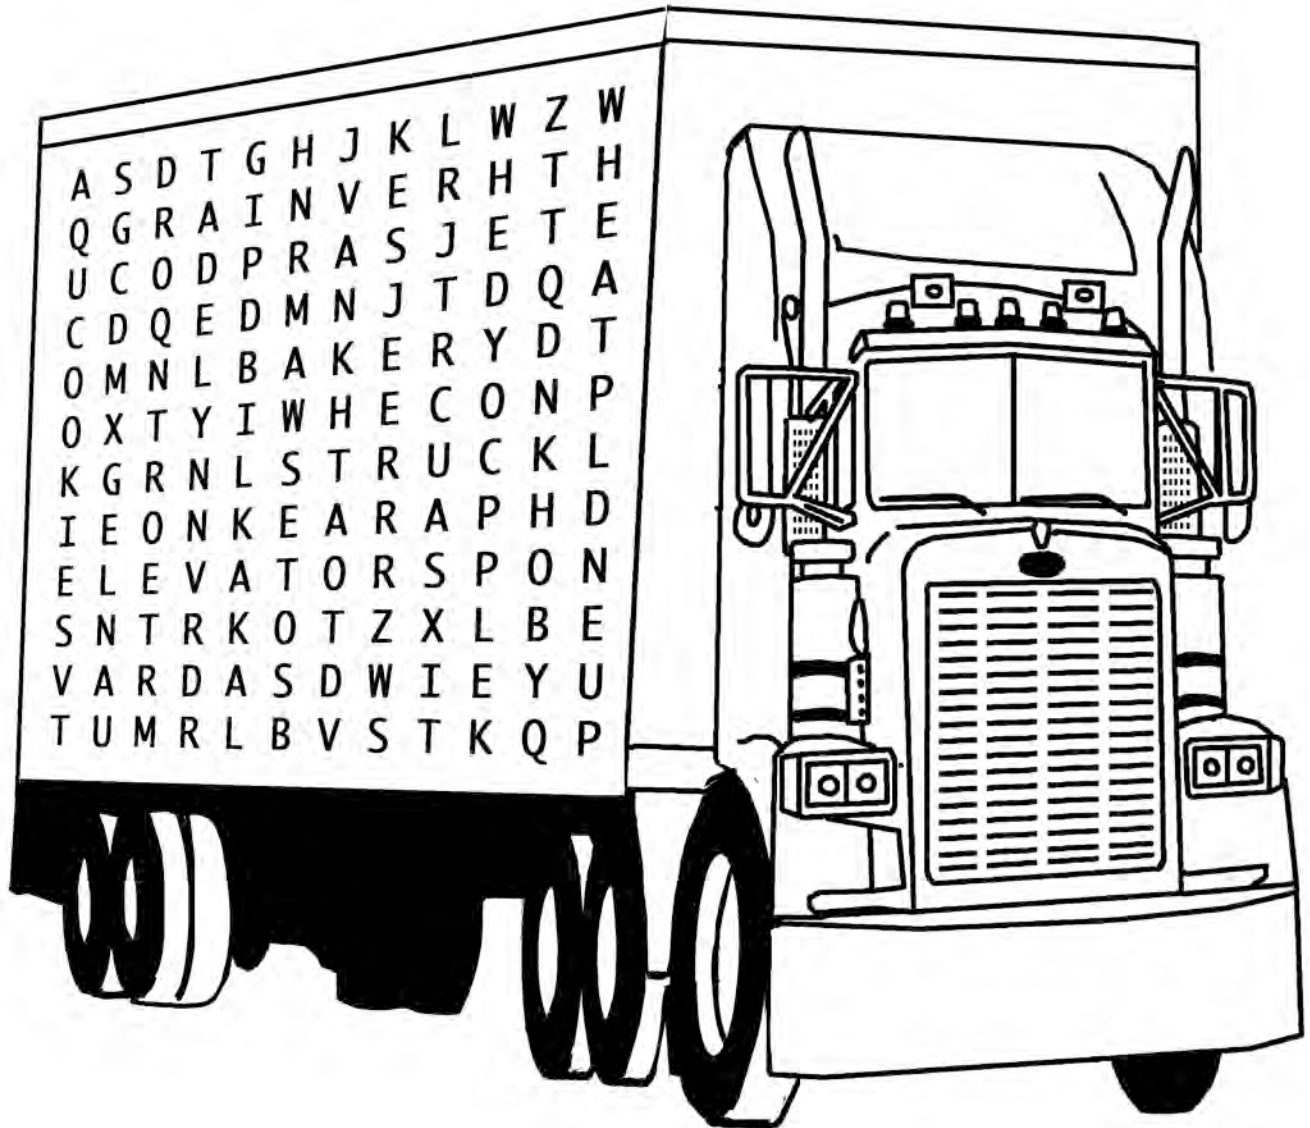

**Can you spot the six differences?**

The wheat grain, now flour, is transported  
by truck to the bakery.

Answer- tires are black, headlights are black, fewer stripes on the side, five top lights, less lines on the grill, no side mirror

# What's in the truck? Word search!

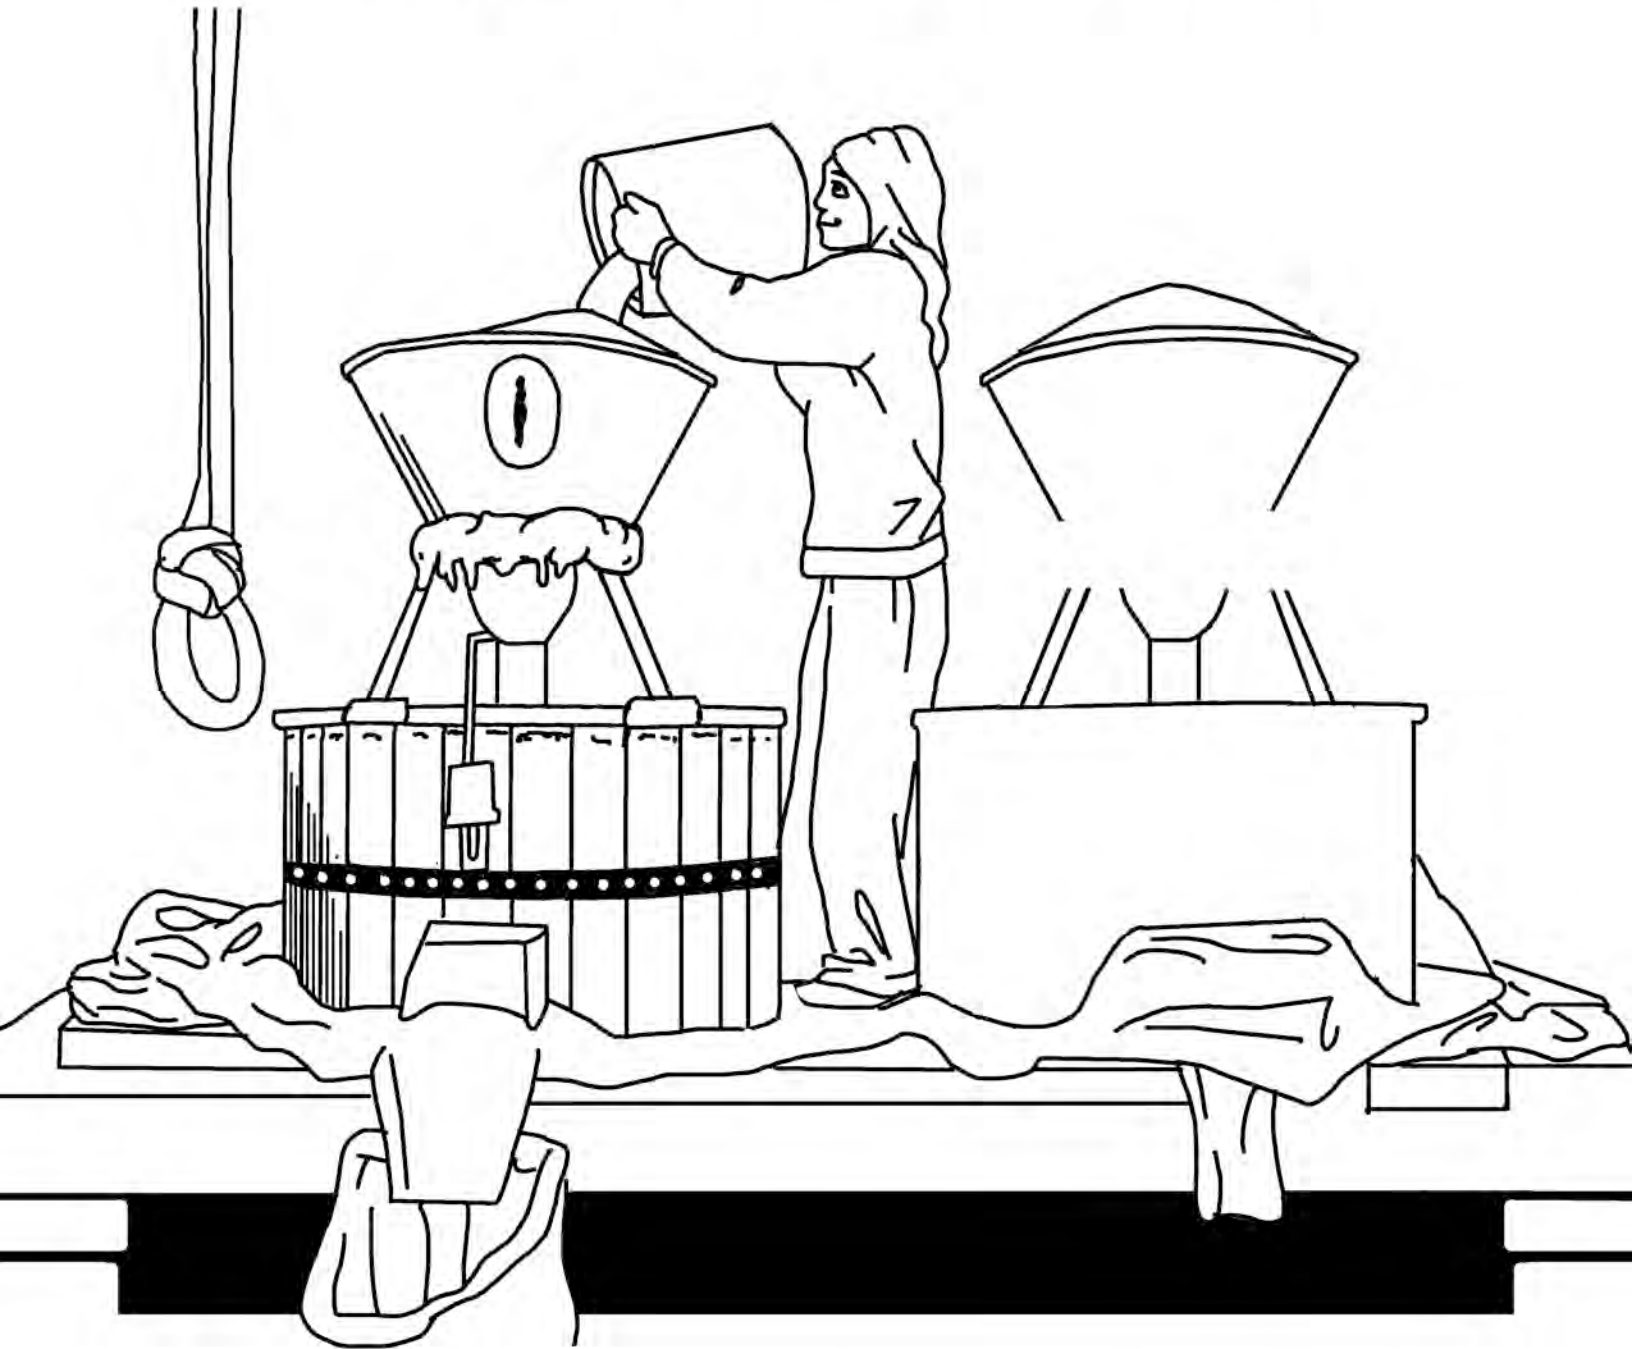

Adelynn learned that there are about 3.5 million truck drivers in the United States, but only 7% of those drivers are women.

Answer - words include Adelynn, grain, bakery, cookies, truck, silo, wheat, elevator

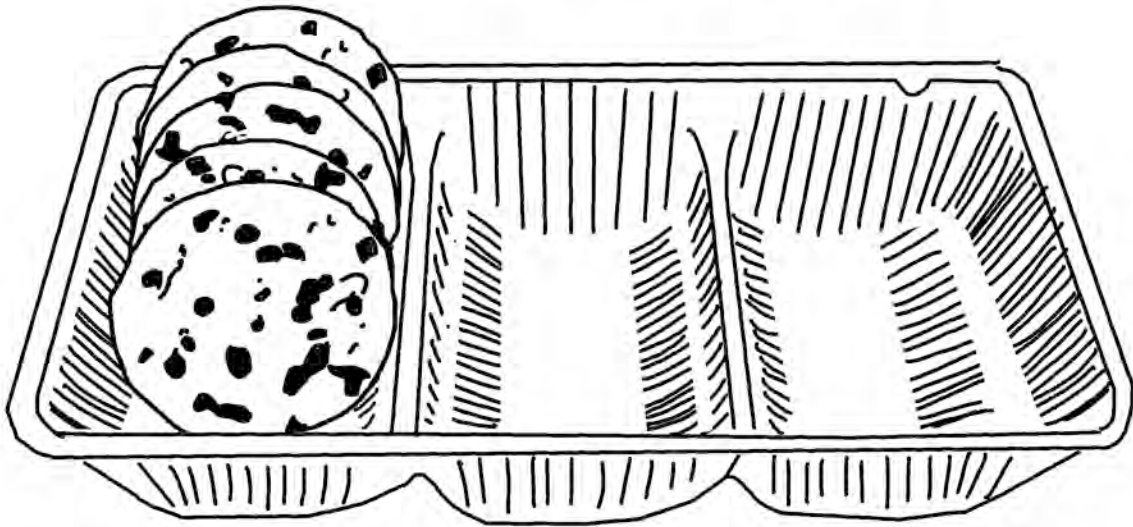

## Draw your own bakery mixing vat!

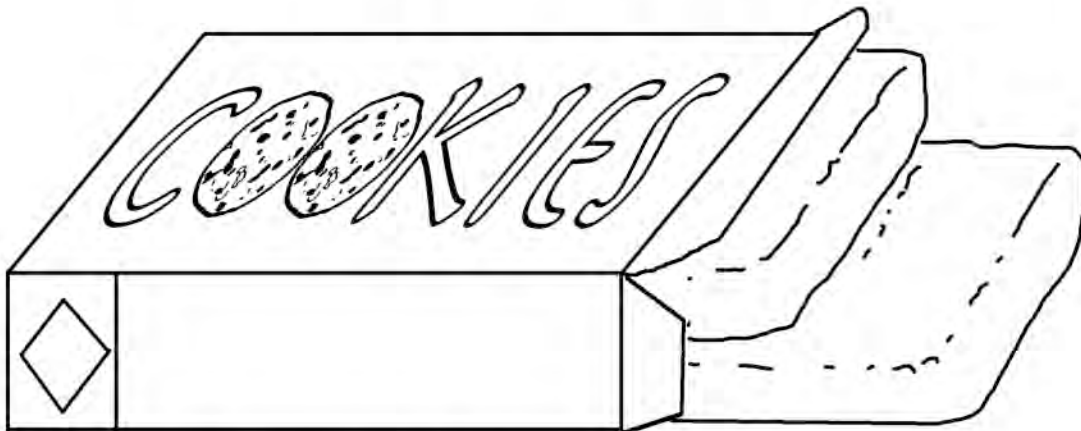

Once the flour arrives at the bakery, it is mixed with other ingredients to make the cookies.

# ABC Bakery-Packaging

If there are 5 cookies in the first row and there are three rows in the tray, how many cookies will be in the box?

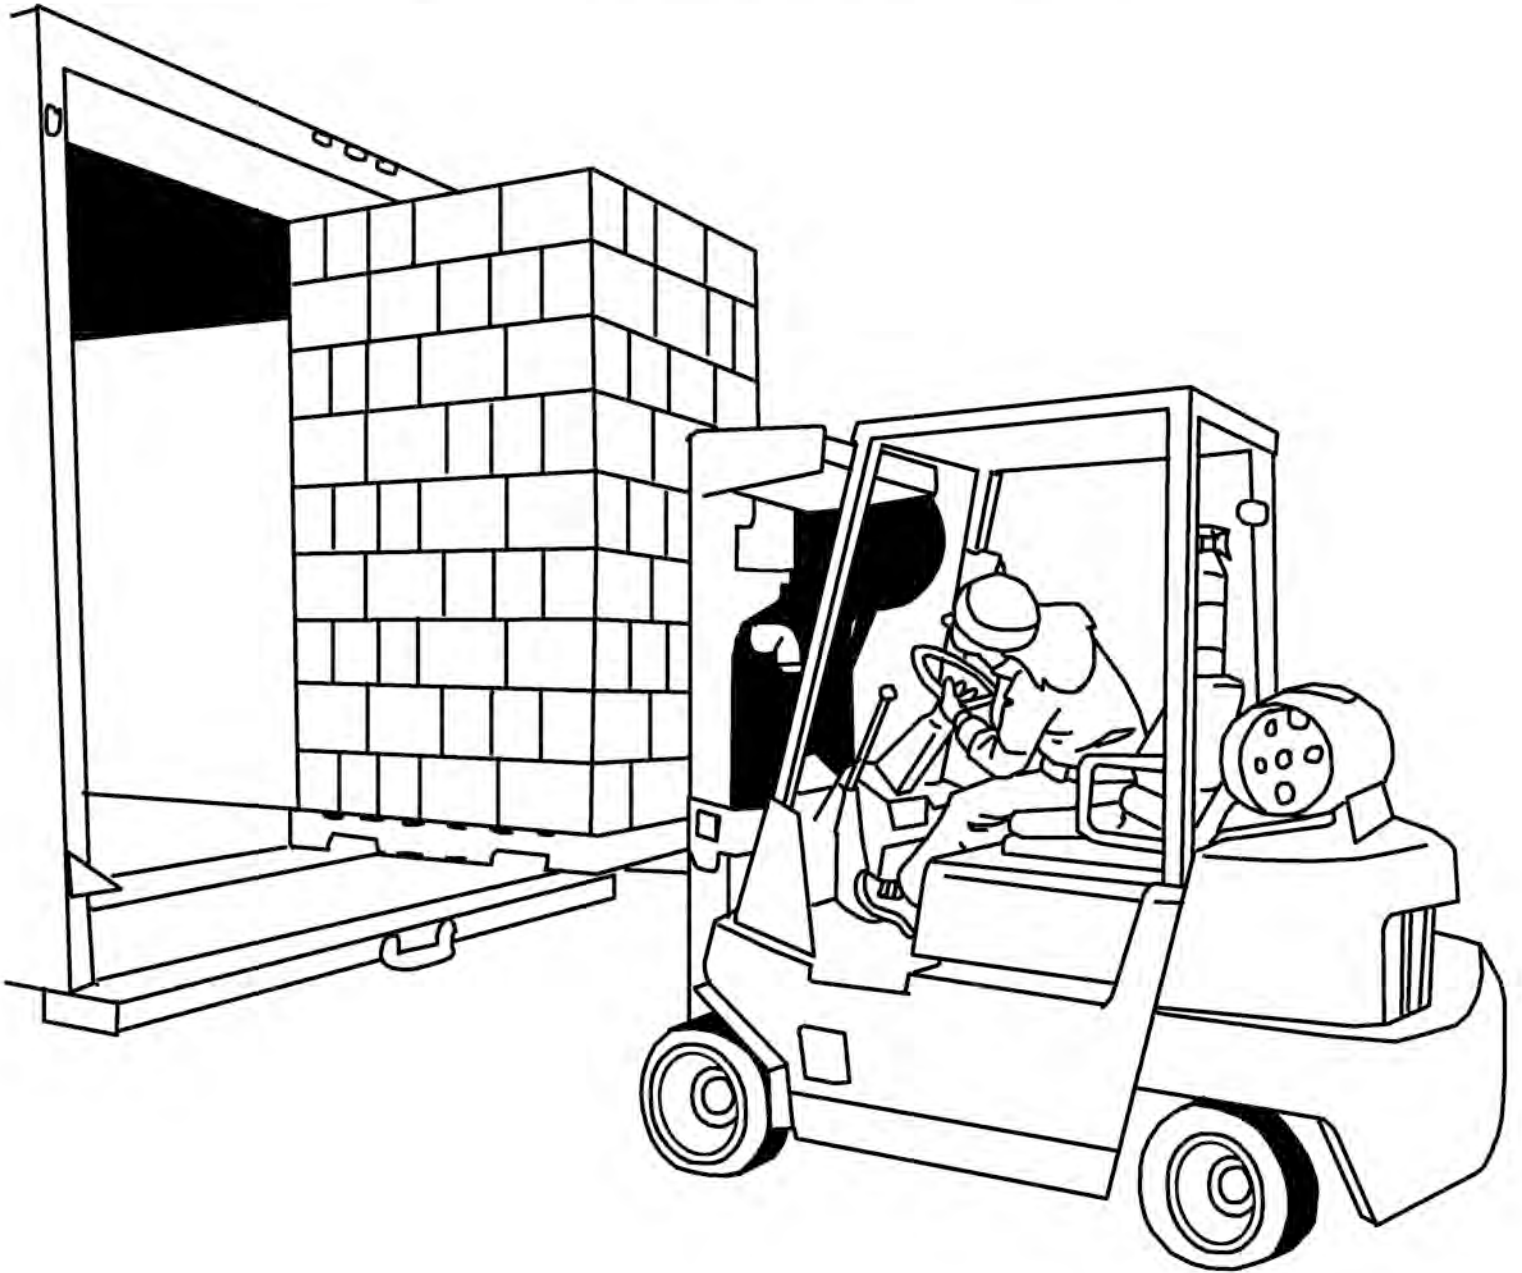

If there are 19 cookies in one package and there are two packages per box, how many cookies do you have?

If someone bought the boxes of cookies from questions 1 and 2, how many cookies will the customer receive?

How many cookies are in a dozen?

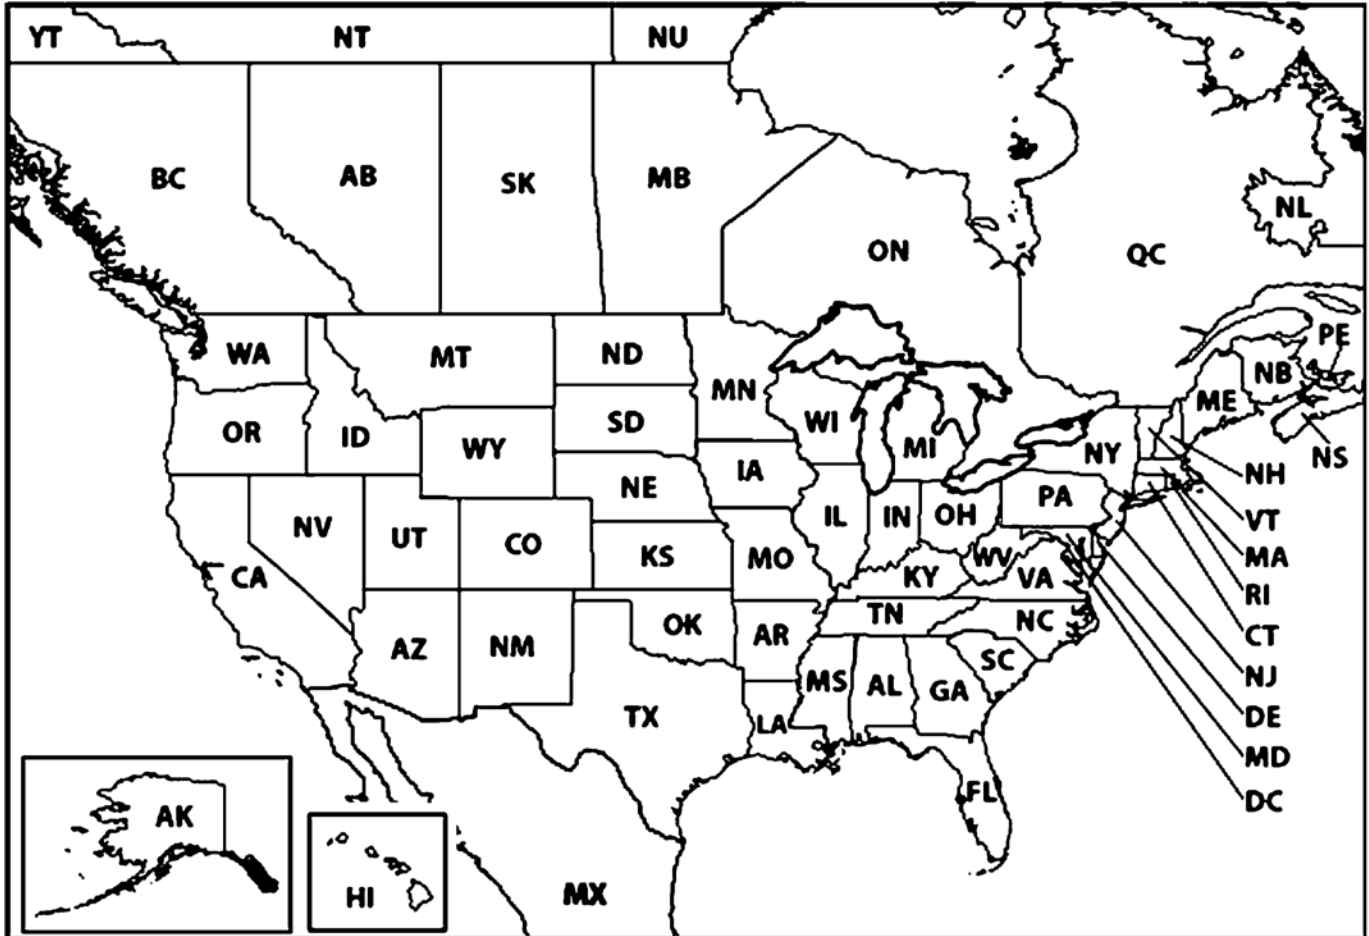

**The cookies are then packaged and ready to be transported.**

## Color the cookie boxes!

Once the cookies are baked and packaged, Adelynn watches them be loaded onto another truck that will take them to their next destination.

# Cookies are delivered to warehouses

Color your state or province red.

Color the rest of the United States blue.

Color the rest of Canada yellow.

What states border Canada?

How many states or provinces have the word “New” in them?

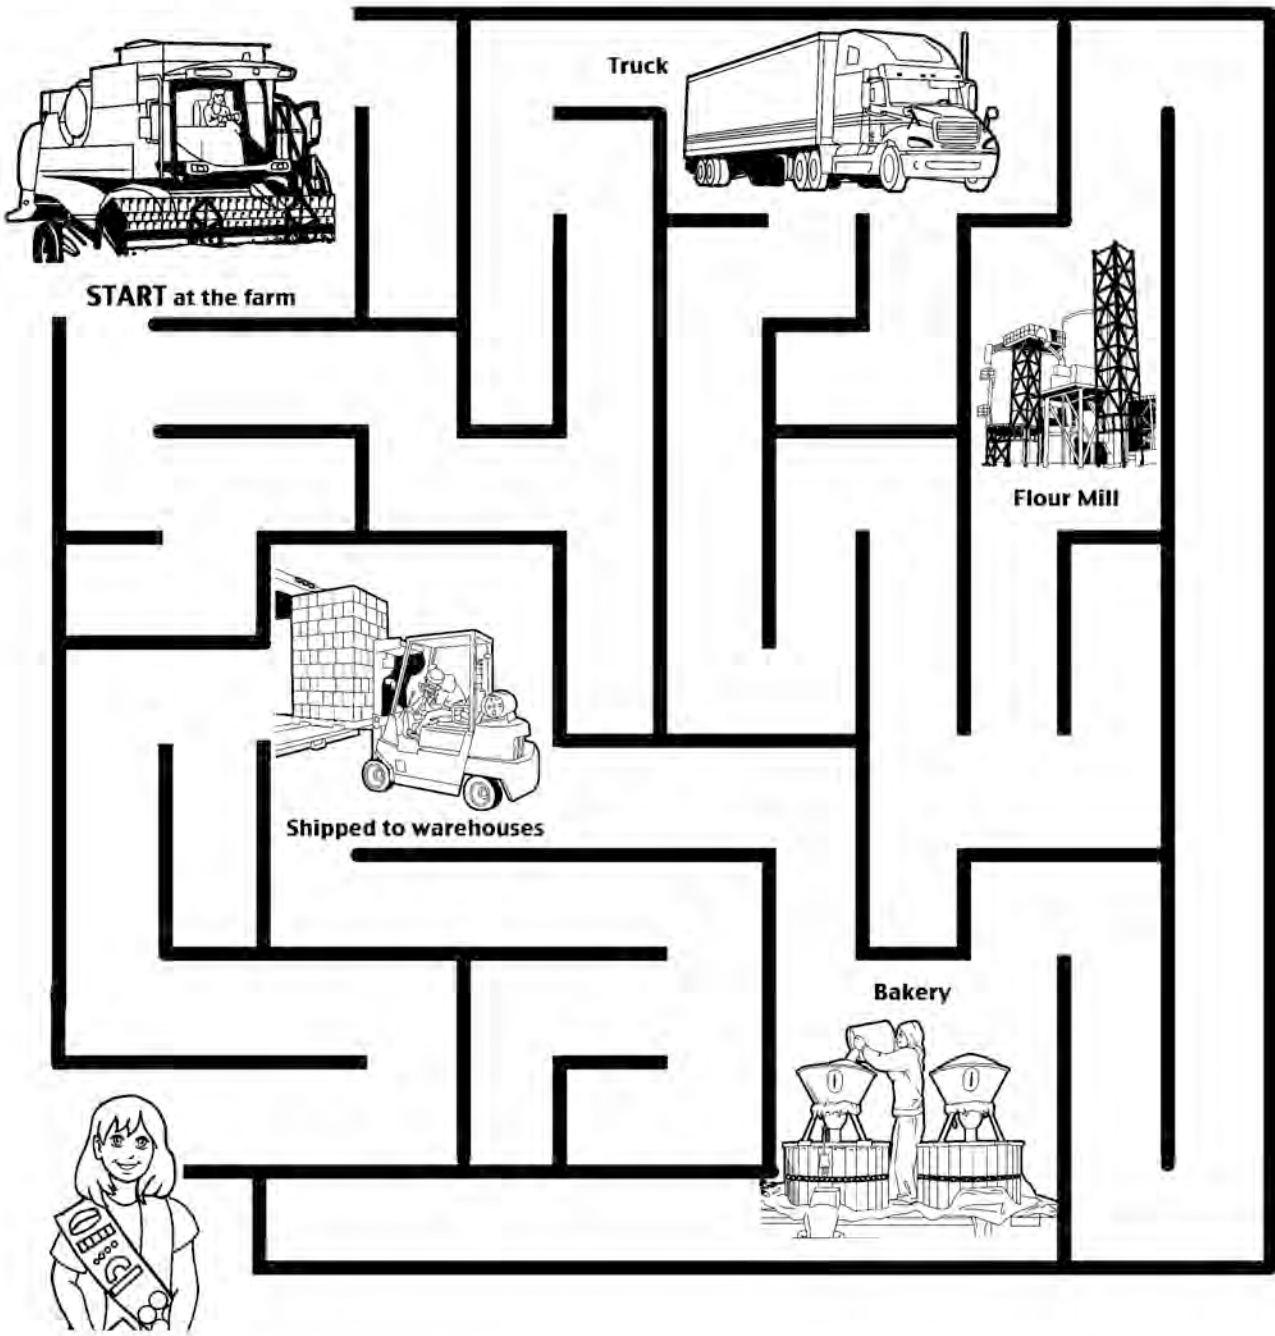

What state is south of Wisconsin?

What states are west of Idaho?

What province is east of Alberta?

What province is north of Manitoba?

# Can you find the route for the cookies?

**FINISH**

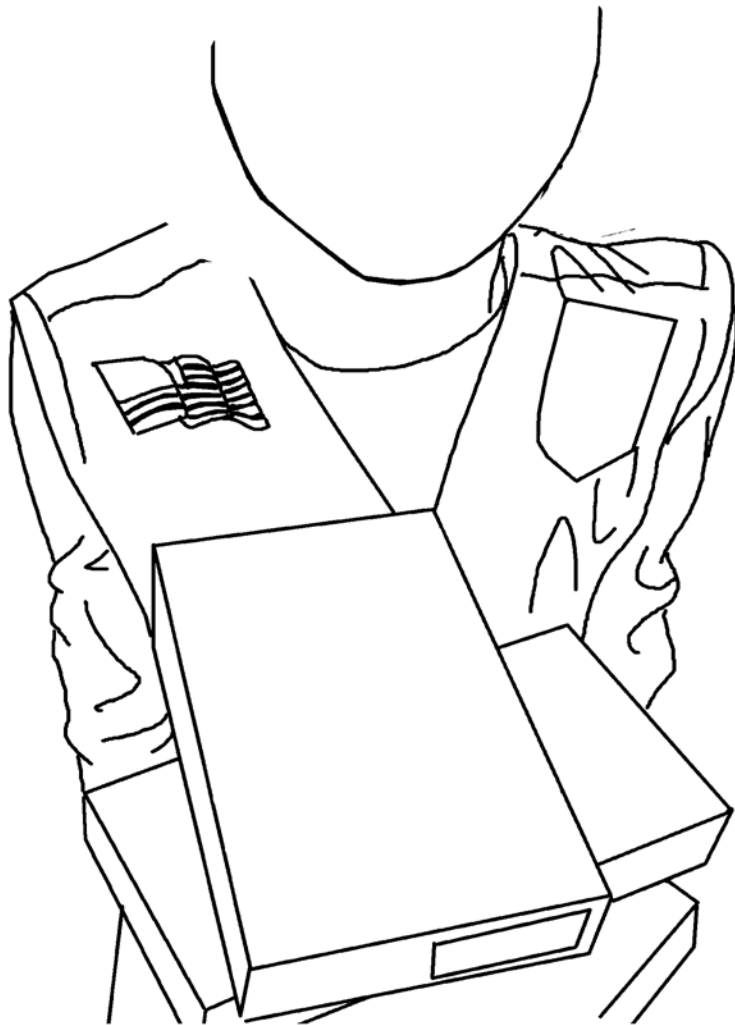

Can you help Adelynn find all the different times wheat moves during the process?

# Parent pickup

Parents can come pick up the boxes that have been ordered in their region.

## Draw your face, and a box design!

Last, girls like you and Adelynn  
hand out their cookie orders.

Did you know the record for the most cookies sold is  
21,477 boxes? Can you imagine delivering all of those?

## Meet Adelynn's doll, Clare!

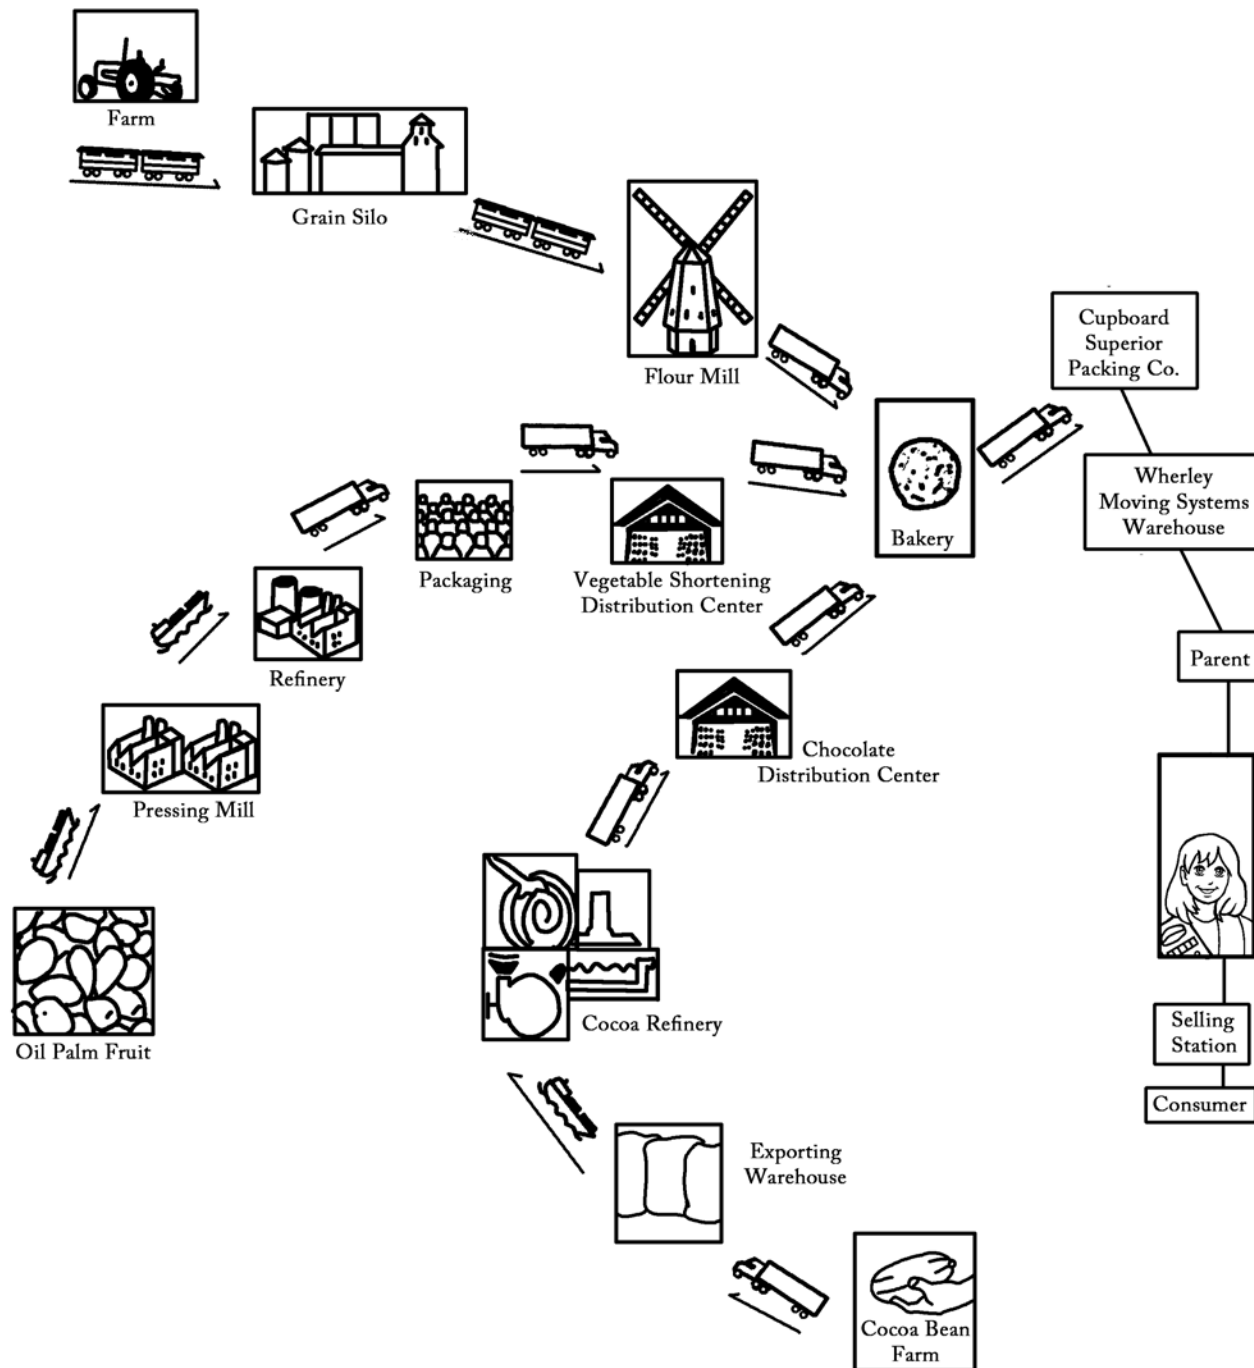

She is a passionate and energetic plush friend that drives her very own 18-wheeler truck. Clare loves being a professional truck driver and is proud of her career.

To learn more about the Clare doll or for information on where to purchase one of her sisters, visit [www.womenintrucking.org/wit-doll](http://www.womenintrucking.org/wit-doll)

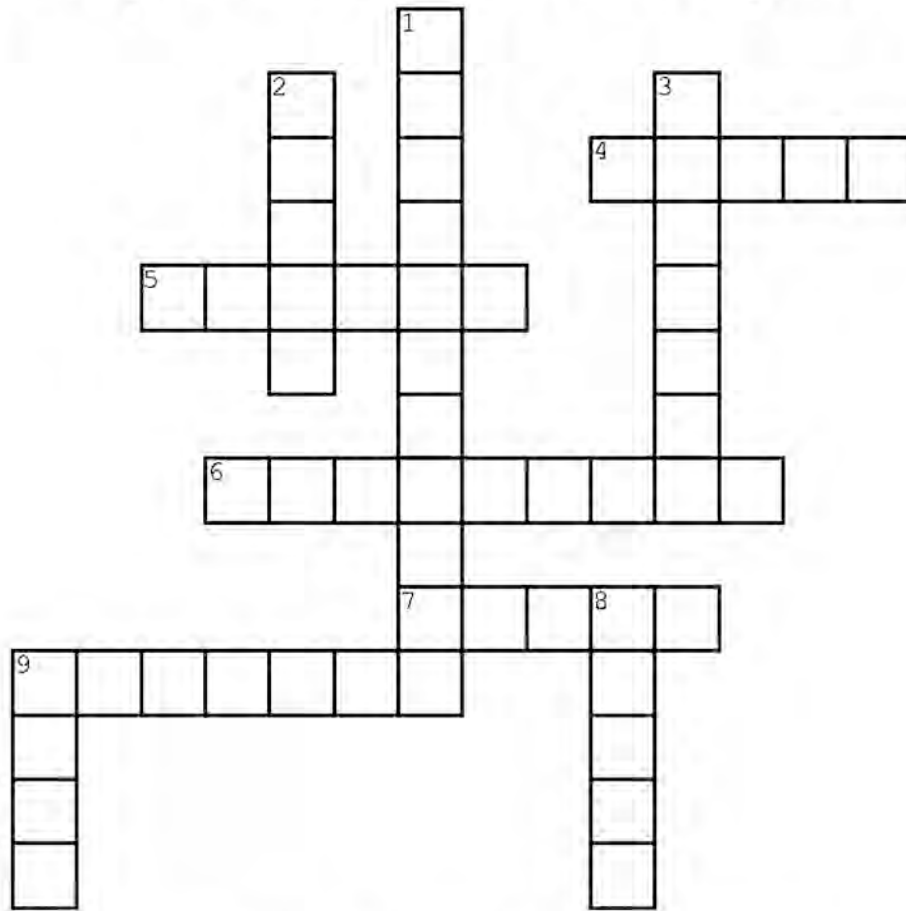

# The cookie supply chain

Adelynn's journey only followed the wheat through its supply chain, but there are similar processes for the other ingredients in the cookies, like cocoa beans and palm fruits.

# Complete the crossword puzzle

Drivers Chain Doll Cookies Ingredients Grates  
Wheat Women Truck Warehouse

## ACROSS

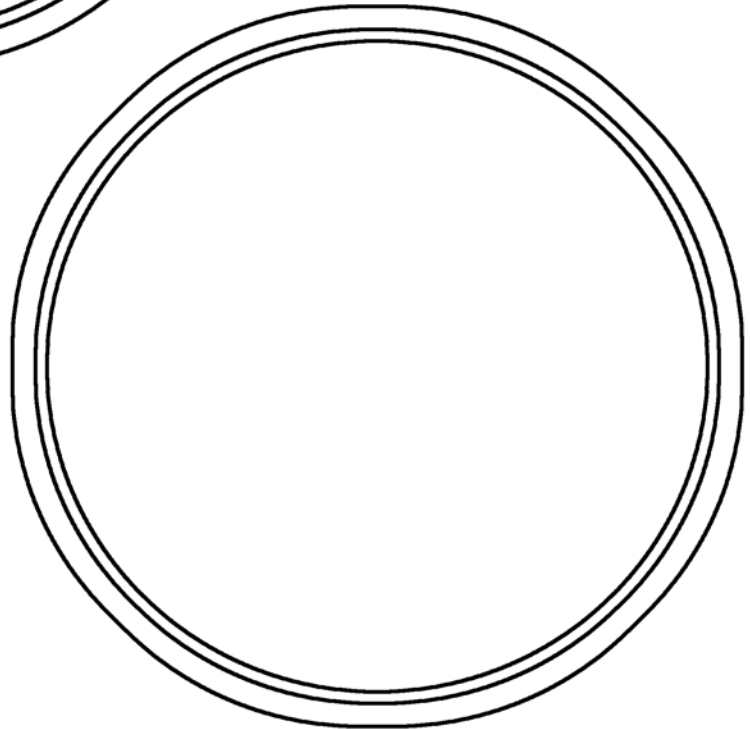

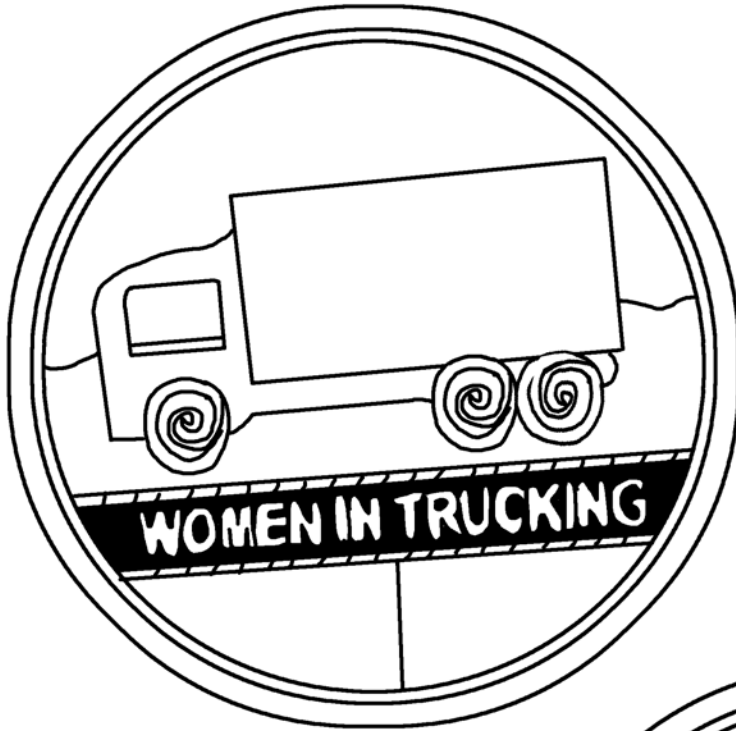

4. \_\_\_\_\_ In Trucking is a nonprofit organization dedicated to increasing the number of women in the trucking industry.
5. At the grain elevator, the driver moves the truck over \_\_\_\_\_ in the floor.
6. A large building where the cookies are stored before distribution.
7. How is the wheat moved through the process?
9. There are 7% of female \_\_\_\_\_ is the trucking industry.

## DOWN

1. At the bakery, the wheat is mixed with other \_\_\_\_\_.
2. Adelynn starts her journey in the \_\_\_\_\_ field.
3. Adelynn looks forward to handing out \_\_\_\_\_.
8. Supply \_\_\_\_\_ is the sequence of processes involved in the production and distribution of a commodity.
9. Clare is the name of the Women In Trucking \_\_\_\_\_.

Answer - ACROSS 4. Women 5. Grates 6. Warehouse 7. Truck 9. Chain 8. Cookies 9. Doll

# Women In Trucking Patch

Color the Women In Trucking Patch,  
then create your own patch!

Adelynn takes us on an adventure through the supply chain in Women In Trucking Association, Inc.'s activity book. She starts in a wheat field and follows the entire process, ending with her cookie delivery. This activity book introduces children to the trucking industry with fun activities along the way.

Women In Trucking Association is a non-profit organization with the mission to encourage the employment of women in the trucking industry, promote their accomplishments, and minimize obstacles faced by women working in the industry.

Please visit our website
