

Response

An integral part of our cyber policy, our award-winning mobile app *Response* gives policyholders access to a range of proactive cybersecurity tools and services.

Here's what this valuable tool has to offer:

Access to CFC's cyber risk management tools

- 1 Phishing simulations – Targeting members of your team whose credentials are the most vulnerable, these simulations send mock phishing emails in order to raise awareness of this criminal tactic.
- 2 Dark web monitoring – This tool scours the dark web for information relating to your business, including corporate login credentials and other breaches of sensitive data relating to your domain name.
- 3 Deep scanning – This service actively scans the external client network footprint to identify claims correlated vulnerabilities that lead to cyber attacks and ransomware.
- 4 Cybersecurity advice – The “Ask the Expert” section of *Response* allows users to get in touch with our specialist team for help with cyber risk mitigation, best practices, cybersecurity services on offer, and more.
- 5 Real time threat alerts – Through continuous monitoring of our customers and analysis of the latest cyber claims, our team is able to spot problems fast. Through *Response*, we send policyholders critical alerts specific to their business along with guidance on how to rectify any issues.

+ ... and instant notification of claims

Suffering an incident? The app allows you to instantly notify our specialist team if you have an issue. This feature of *Response* triggers an immediate call-back from our experience team of responders.

For a free trial, use demo code **DEMOCFC000** to register.
The app is available on the [App Store](#) or [Google Play](#).
