

# 8-WELL COMPLETION

Although drill times are crucial to the overall success of completions operations, it is the surface-to-surface data which we continually strive to improve. Surface-to-surface data is one of the best ways to evaluate teamwork efficiency between a customer's chosen vendors.

**Avg. Surface-to-Surface Time: 31.875 hours**

Trip Time (avg.): 20 min	KOP (avg.): 6,500 ft.
Drill Time (avg.): 4.3 min	TS (avg.): 16,650 ft.
