SOLUTIONS**  
ACTUATION • MODIFICATION • REPAIR

## DistributionNOW is a leading provider of products and applied solutions for the energy and industrial markets.

An industry-leading provider of pipe, valves and valve automation, flanges, fittings, instrumentation, mill and industrial supplies, tools, safety supplies, electrical products, drilling and production equipment, artificial lift, pumps, fabricated equipment, and industrial paints and coatings to the upstream, midstream, and downstream industrial markets.

DistributionNOW has over 285 locations in more than 20 countries. Serving upstream, midstream, and downstream/industrial markets.

We will continue to expand our global footprint wherever there is an opportunity to better serve our customers.

## What Sets Us Apart?

We have been refining our capabilities over the past 150 years. We have the knowledge and experience that only comes from weathering the ups and downs of an ever-changing marketplace. When our customers need something, whether it is quality materials, applied knowledge, or tailored solutions, DistributionNOW is their one-stop shop.

We bring together an exceptional combination of people, processes, technology, and products dedicated to our customers' success. And that success is happening every day, every minute, and on every job.

## Service Menu

### On-Site Services

- Site survey
- Container solution
- Shutdown planning, repair, and testing
- Online leak detection
- Routine maintenance
- Condition monitoring
- Commissioning
- Valve and flange management
- Leak testing
- On-site flange machining
- Valve tagging
- Control valve diagnostics
- PSV on-site testing

### Workshop Repair and Testing

- High pressure hydrostatic and pneumatic testing
- OEM trained technicians
- Strip down and inspection
- PMI testing
- Recommendation for repair/upgrade
- Failure analysis
- OEM parts stocking
- Machining and welding
- Flange end modification

**For more information please contact DNOW.**

### Actuation

- Valve and actuator integration
- Actuator compatibility assessment
- Valve torque measurement
- Mounting adaptor design and manufacture
- Control panel design and manufacture

### Engineering

- OEM-trained engineers
- Wide-ranging industry experience
- Failure analysis
- Criticality assessment
- Project management

### Inventory Management and Supply Chain Services

- Valves, actuators, instrumentation, and spares
- Consignment solutions
- Identify and value assets
- Rationalization of inventory
- Track and dispose assets
- Inventory investment
- Inventory availability
- Work order management
- Long term preservation and maintenance
- Recertification and testing
- PMI testing

## Service Menu

### ENGINEERING, PROCUREMENT AND CONSTRUCTION (EPC)

#### On-site Service Construction

- Project management
- Valve management and inventory
- Flange management
- On-site machining
- High pressure retro jetting
- Hydro-testing, flushing, drying
- Storage and preservation

#### Pre-commissioning and Commissioning

- Nitrogen (N<sub>2</sub>) leak testing system
- Chemical cleaning and hot oil flushing
- Nitrogen purging and preservation
- Start-up and commissioning spare part and inventory

**For more information please contact DNOW.**

**F +971 4 885 1118**

**ARE-Sales@dnw.com**

### Valve Management Software (VMS)

- Customer installed based data
- Site assessment and condition monitoring
- Data gathering and processing
- Valve integrity – risk based approach
- Valve inventory management

Valve Management Software Interface

### Consigned Inventory Solutions (CIS)

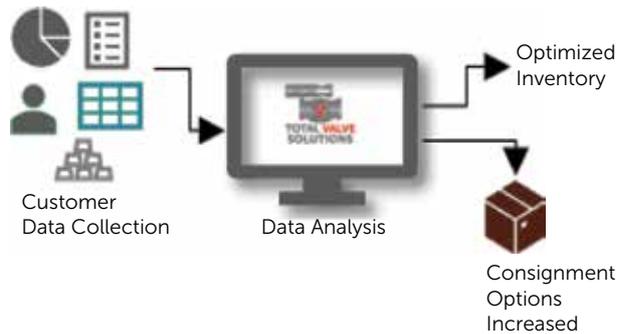

#### PROBLEM!

- Customer valve inventory at excessive level
- Millions of capital tied up
- Multiple brands of similar type valves in stock
- Inventory not aligned with operational needs.
- Majority of stock non or slow moving

#### TVS SOLUTION!

- Customer inventory reduced
- Optimized inventory
- Consignment options increased
