

ROADWAY, COMMERCIAL & INDUSTRIAL LIGHTING

Illuminating the way

Light & Energy Distribution (LED), formerly MacLean Electrical Lighting Division, is a leading, specialist distributor of roadway, industrial & commercial lighting solutions operating throughout the UK.

With over 40 years experience, LED has developed the expertise to provide an efficient, cost effective and project planned lighting service to our clients. Having worked with many of the UK's local authorities, we advise, supply and project manage lighting projects of any scale, meeting the most stringent of standards for public and private requirements.

Based throughout the UK, with the support of parent company MacLean Electrical and the worldwide DistributionNOW network, we have dedicated support teams providing product application advice together with innovative and energy efficient solutions to maximise your carbon reduction targets.

LIGHTING DESIGN

Comprehensive service to provide efficient & cost effective lighting for projects whether new install or new design for premises or roadways

SUPPLY CHAIN

Planning, product selection advice, sourcing, purchasing, expediting, inspection, testing, documentation, warehousing, logistics, distribution & reporting

UNRIVALLED STOCK

Warehouse facilities throughout the UK housing large inventories to provide a fast & efficient service & quick turnaround

LIGHTING WORKSHOP

In-house workshop facilities providing customisation & assembly of lighting panels, distribution boards & LED lanterns

PRODUCT RANGE

We have a vast product and service range which has been influenced by and developed specifically for the industries we serve. Continuous reviews and monitoring of these industries allow us to expand our product portfolio to provide the best solution to our clients. We specialise in design, supply and technical support for local authorities, developers, end users and contractors.

- Roadway Lighting
