ADLIB®

Leveraging PDF for Consistency

This electronic components manufacturer eliminated custom programs and established PDF as the corporate standard, using Adlib to render documents across the organization.

THE CHALLENGE

To convert legacy user manuals to PDF—their new corporate standard—this electronic components manufacturer needed an effective, single rendering solution to avoid rekeying the content manually and wasting knowledge worker hours.

They were faced with a number of arduous challenges. This organization needed to:

- Ensure consistency across the organization in terms of the programs used to render documents
- Eliminate the inconsistencies caused by varied file formats from department to department
- Reduce the costs of retyping user manuals by hand

THE RESULT

Having a standard file format across the organization can help improve business efficiency. Adlib offers exceptional support for the full range of Acrobat features, giving companies the means to tailor PDF files to meet corporate requirements and best practices. In this instance, a manufacturer gained a consistent, corporate-wide mechanism for delivering user manuals to customers.

By using Adlib, this electronic components manufacturer achieved a number of benefits:

- A single rendering solution across departments
- Elimination of custom programs
- Consistent PDF files across the entire organization
- Establishment of PDF as the standard file format

Advanced Rendering enabled this manufacturing organization to implement PDF as a consistent, corporate standard for delivering user manuals to customers, resulting in huge savings of time and money.

WHAT IS ADVANCED RENDERING?

Advanced Rendering technology takes basic document–to-PDF conversion to a higher level by integrating into the most commonly-used Enterprise Content Management (ECM) systems and automating the conversion of content from multiple sources into more manageable and usable formats to enhance documents at each of the 4 stages of the document lifecycle: capture, manage, archive and deliver.

Adlib PDF Enterprise is the next-generation of Advanced Rendering technology that is ideal for high-volume environments where accurate, scalable and highly-available document-to-PDF conversion and transformation services are required across the enterprise.
