

Leverage AI & Automation to Solve LIBOR

Deeper Contract Analytics for LIBOR Reform

Handle LIBOR Transition with Confidence & Ease

Whether you work in legal, finance, or risk, your challenge is to uncover all your LIBOR/IBOR-linked contracts as quickly and efficiently as possible. Your second challenge is to gather the intelligence you need to protect your organization and comply with changing regulations. Completing these tasks manually is a serious administrative burden that could open your organization up to costly litigation. It's time to get intelligent about your contracts. It's time to get Adlib.

Bring the Power of AI to Your Entire Team

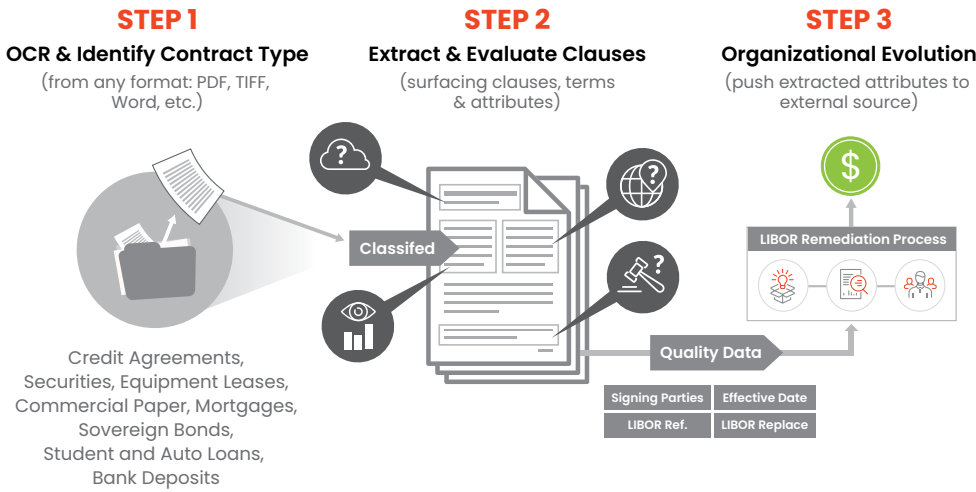

You don't need to be a tech expert to use our Contract Analytics solution. Our trainable AI models and Citizen Data Scientist approach make it easy for anyone on your team—even the least technically inclined—to discover, analyze, classify, and extract key contract data. With Adlib's powerful, easy-to-use AI, your team can rapidly identify risk, assess impact, and gain the intelligence you need to tackle LIBOR/IBOR transition with ease.

Minimize Risk. Maximize Revenue. Avoid Admin Headaches.

Take the Liability Out of LIBOR Transition

Adlib for LIBOR/IBOR gives financial institutions critical visibility into their contract landscape with the ability to group contracts based on key attributes (such as expiration dates, potential rate adjustments, or fall-back language). In addition, our AI-trainable models incorporate new guidances as they become available. Whether it's responding to specific non-IBOR replacement benchmarks, Alternative Reference Rates, or emerging regulations and provisions, Adlib adjusts with the shifting compliance landscape.
