

Introducing inspHire Software for Plant, Tool and Equipment Hire

Key Functionalities

Easy Hire and Sales Screen

Allows for quicker and slicker contract generation.

Automated e-mailing of invoicing

Forward scheduled invoices on a monthly, weekly or daily basis, saving you time and ensuring invoices are not late or lost.

Asset Accessories

Tag hired assets with key accessories ensuring staff can pick and deliver those all important extras such as sanding sheets and fuel, preventing administrative errors and helping you up-sell to customers.

Multi Location

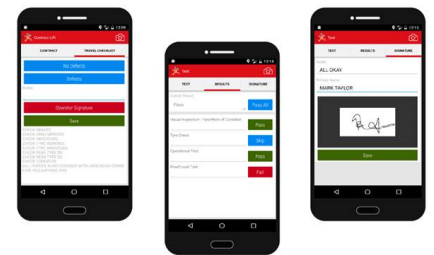

Stock availability and forecasting is available for all your depots, making it easy to ascertain if you can fulfil customers' requirements.

Test Certification

Import results against asset items and provide a record of all tests performed allowing certifications to be printed. Link to any compliant PAT Tester using Simply PATs.

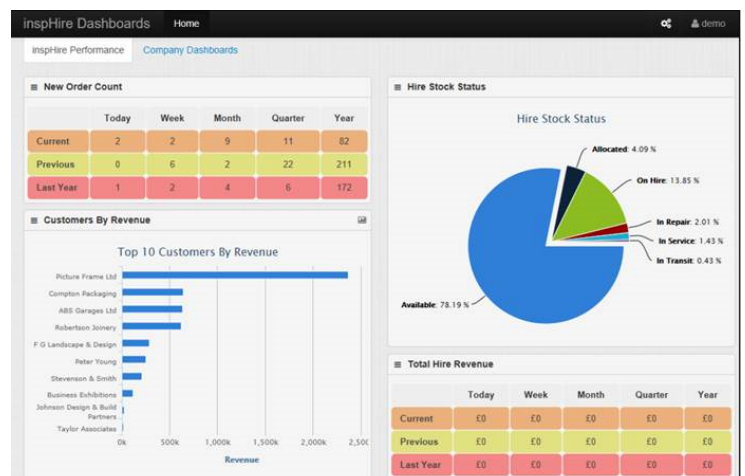

InspHire Benefits

- ✓ Total Hire Revenue
- ✓ Hire Stock Status
- ✓ Average Days Item in Workshop
- ✓ Customers By Orders Hired
- ✓ New Sales Order Count
- ✓ Top Earning Item Groups

InspHire Software has allowed us to greatly improve and streamline our processes. It's a very user friendly system that has lightened the workload and has given us more flexibility.
