**100 Years of Setting the Standard
1919 - 2019**
Standard Electric Supply Co.

1970s

The 1970s brought more change to Standard Electric. Realizing we could not serve the needs of every customer we scaled back our offering. The company shifted focus to three main product categories; lighting, apparatus and supply, and housewares and small appliances.

BRADY SAFEKEY LOCKOUT PADLOCKS

Get ultimate key precision and advanced key security

[WATCH VIDEO](#)

With Brady's innovatively designed padlock, you get up to 700% more unique key possibilities than a standard safety padlock, without sacrificing a secure lockout. With that level of precision, you're covered from your simple to highly complex lockout needs. You also get:

- Easy operation with extra smooth key insertion and removal
- Fast identification with the color-matched key and lock body
- Years of use with the low-friction locking mechanism that helps maintain key integrity
- Excellent durability in every industrial environment

MERSEN SURGE PROTECTION SOLUTIONS

Surge-Trap® UL/CSA Surge Protective Devices

Power related fluctuations cost companies in the US more than \$80 billion dollars annually. A down machine can cost you time and money. Protect your equipment from surge events with Mersen's line of Surge Protection Devices.

What types of damage can Mersen help prevent?

- **Disruptive** - surge enters an electronic component which interprets the valid logic command
- **Dissipative**: repetitive pulsing of short duration energy
- **Destructive**: high-level energy surge that immediately results in equipment failure or destruction

OMNI CABLE MANAGEMENT

A one-stop shop for wire and cable needs

Sometimes, your wire center gets overrun with spools, coils, and boxes of wire and cable used in your assembly and manufacturing processes. Partner with Standard Electric and Omni Cable to develop a solution to organize your wire center and streamline material management processes as part of our Vendor Managed Inventory program.

Collaborative Solutions offered:

- Custom spool sizes
- Standard footage for bin locations
- Quick turnaround on requirements

inSIGHT DATA MONITORING

Monitor critical performance indicators

WATCH VIDEO

Data collection and analytics in today's market are increasingly important to ensuring efficiency, uptime, and quality. For any industrial manufacturer or data center owner, the ability to predict costly downtime before it happens is critical to maintaining productivity.

The Hubbell inSIGHT™ Data Monitoring line includes:

- Pin and sleeve devices
- Ethernet gateways
- Smart power cables
- Circuit and Environmental Monitors
- Software (cloud-based or local packages)

ACME ICT TRANSFORMERS

Cooler. Cleaner. More Compact.

Acme's revamped ICT line handles the potentially damaging high in-rush currents caused when electromagnetic components are energized. These dry-type, step-down transformers reduce supply voltages to 240V or lower to operate electromagnetic devices.

ICT Product Line Features Include:

- Voltage regulation exceeds NEMA standards
- High quality silicon laminated steel construction minimizes core losses and increases efficiency
- Copper windings on all groups
- Backed by a twenty-year limited warranty

STAHLIN J&JW SERIES ENCLOSURES

Developed for harsh, aggressive environments

Originally developed as an electrical junction box for the oil refining and petrochem industries, the Stahlin J series has evolved over the years into a versatile industrial enclosure with varied applications for use from high-end electronics to extreme corrosive applications both indoors and out. Rugged design combined with tough, durable materials, for extreme reliability in tough environments are key attributes of this series.

Key features:

- Over 180 configurations available in 17 sizes
- Flat for component mounting versatility
- 5 cover securement methods available
- Integrally molded mounting flange
- Submersion rated
