

STANDARD ELECTRIC SUPPLY CO.
ENGINEERING SUPPORT
MEET OUR TEAM OF ENGINEERS

Need an extra hand? Let our experienced team of over 30 engineers help you! They are ready to assist you and are highly trained in the following areas:

- IIoT Consulting
- Remote Connection
- Cloud-based analytics
- Control products
- Field Bus Connectivity
- HMIs
- Drives
- PLCs
- Motor Control Centers
- Software Packages
- Switchgear
- Sensing Devices
- Machine and Plant Safety Products
- RF Communications

100 Years of Setting the Standard
1919 - 2019
Standard Electric Supply Co.

1950s

Building upon post-war growth and the construction boom of the late 1940s, Standard Electric expanded their sales force throughout the state of Wisconsin. The company added more technical products like switches and panel boards and non-technical items like dinnerware, cookware, and utensils were added to its product mix. The major appliance group also expanded by including items like televisions and air conditioners.

LIQUID COOLING PACKAGE SYSTEMS
IT Cooling. Made Better.

The Liquid Cooling Package (LCP) from Rittal is an efficient cooling solution for the dissipation of high heat losses from IT racks. Both suite-based and rack-based variants are offered within the LCP product family.

Benefits:

- Maximum energy efficiency
- Minimal pressure loss at the air end, minimizing power consumption
- Control of the server inlet temperature
- Speed-regulated compressor to ensure the cooling output is adapted to actual requirements

SPACEMAKER SERIES
Electronic Wire and Cable from Belden

When space is an issue think of Belden's SpaceMaker electronic wire and cable from OMNI Cable. They are up to 45% smaller than your traditional cable and will save you up to 52% more space.

Perfect for the following applications:

- Internal machine wiring
- Control cabinets
- Production lines
- Device-to-device wiring

MICRO SWITCH V15W2 SERIES

Basic switch for hazardous locations

Honeywell

Honeywell MICRO SWITCH V15W2 Series basic switches are precision snap-action contact mechanisms enclosed in plastic cases. Switch actuation triggers the mechanical closure of the switch's contacts.

Potential Applications:

- Appliances (especially with new refrigerants)
- Valve actuators
- Commercial refrigeration
- Ice makers
- HVAC/R (furnace, refrigeration, ventilation)

RAM CELLULAR RTUs

Turn remote sites into smart remote sites

Red Lion's rugged RAM cellular RTUs push control to the network edge with an easy-to-configure event engine that simplifies remote asset monitoring regardless of location.

- Trigger I/O or send SMS text message alerts based on real-time operational data
- Address harsh environmental conditions with rugged, secure all-in-one platform
- Support varied connectivity options from I/O to serial, Ethernet, and Wi-Fi

TruWAVE ACTIVE HARMONIC FILTER

Flexible solution for harmonic mitigation

HPS TruWAVE monitors the load current and very quickly responds to the power system distortion as it develops. A corrective current is injected to effectively cancel out the harmonics required from the upstream power source. The result is a harmonic load on the power system that is acceptable, with more balanced current and voltage waveforms.

Features and benefits:

- Actively reduces harmonic distortion
- Improves power factor resulting in decreased utility cost
- Parallel system installation to accommodate large scale applications
- 98% operation efficiency to lower operation costs and increase reliability

netTAP 50 SINGLE-CHANNEL GATEWAY

Connect a field device into any network for \$400 a channel

Hilscher's netTAP 50 Gateway is a fast and economical way to provide integration and data conversion of a single field device into any higher-level network.

Conversions include:

- Fieldbus to Real-Time Ethernet
- Fieldbus to serial
- Real-time Ethernet to serial

Features include:

- FREE Configuration via SYCON.net
- DIN-Rail mounted
- Compact (100x70x25mm)
- 0-60 degrees C operating temperature
