100 Years of Setting the Standard
1919 - 2019
Standard Electric Supply Co.

1990s

The 1990s were all about planning for the future. Over the years, there were many adjustments made to the business focus and product selections, the 90s were no exception. Standard Electric was tasked with planning for changes in the marketplace, competition, technology, and the economy.

Cable Management Solutions

The Solution to Your Wire and Cable Mess

CASE STUDY

If you have a wire or cable mess, source a variety of wire and cable from multiple vendors, or if your spools, coils, and wire are in disarray you could be spending money ordering inventory you already have on-hand. OmniCable, in partnership with Standard Electric, can streamline your reordering process, enhance your product identification, and improve plant floor efficiencies with cable management solutions.

Solutions include:

- Custom spool sizes
- Barcode labeling customization
- Standard footage for bin locations
- Reduction of excess spending with managed lengths
- One source for wire and cable
- Vendor managed inventory
