

# How to Stay OSHA Compliant with Arc Flash and Lockout/Tagout Services

This 30 minute webinar will help you have a better understanding of where you are on the spectrum of OSHA compliance, in the realm of LOTO and Arc Flash hazards. A review of the Brady offering will be conducted to see what would be the best fit, cost-wise and time-wise at your facilities.

## **Attendees will learn:**

- General overview of OSHA and NFPA 70E guidelines and why compliance at your facility is a good idea
- Services offered by Brady to help you become compliant
- Ways to keep a safe working environment and to continue compliance going forward
