

Introduction to Rittal's New Enclosure Offering

This 30 minute webinar will cover the new AX and KX offering of small enclosures from Rittal. Learn about transitioning from legacy AE, CM, EB, and KL designs and how new designs can improve workflow for panel builders.

Other topics that will be discussed:

- New features and benefits
- Discussion on global standards
- Adding accessories

If you are an engineer or involved in panel building, this webinar is ideal for you.
