

Standard Electric Supply Co. and Mersen present

FUSING EFFICIENCY, COST SAVINGS AND SAFETY: MERSEN MAKES IT SIMPLE

Fuses are not all that technical or complicated. Neither are they components where you want to spend a lot of time and energy worrying about managing them. But understanding the fuse usage in your facilities is fundamental to effectively managing your plant inventory, operating costs, code compliance, and workplace safety. Mersen's Fuse Control program is designed to help you streamline your fuse inventory, saving you money and increasing workplace safety. They make it simple.

Wednesday, November 18

9:00AM - 10:00AM
